

Instant messages to your target market
We have over 40,000 local opted-in emails we market to.

Did you know over 95% of people check their email daily at least once?

Email is still one of the most effective pieces of digital marketing you can do. The main issue however is building the network of contacts for it to be effective. Neighbors Of has created an email list of over 40,000 potential customers in your local area who have "opted in" to our service to find businesses and get deals, coupons, grand openings, and more information from LOCAL BUSINESSES. This list grows daily!

As with all our marketing strategies, our email marketing is another one of our cost-effective strategies to help you and your business create new contacts throughout the local area.

Monthly Emails: \$149.00 Per Month (3 Emails for 1 Penny)

Either you can create, or we will create the artwork. You will be part of a group of local businesses. Include deals, phone number, email, links to your website, Facebook, Instagram, ect.
