

What We Will Learn This Week

Bible-

There is not a lot written about Jesus from the time of his birth until the beginning of his ministry. We will read about his visit to the temple at 12 years old, his baptism in the Jordan River, and the temptation in the wilderness.

Language Arts-

We have reviewed all letters and sounds at this point and will start reading words with consonant blends. Our high-frequency words for the week are there and was. We will be focusing more on reading comprehension as we read, identifying main characters, story setting, and key ideas.

Math-

We will pick up where we left off, practicing addition. We will work on solving addition problems in horizontal and vertical form. I noticed several students scored lower in the area of counting sets by objects by category and reading pictographs on the NWEA assessments, so we will be spending some time reviewing this as well.

Heritage Studies-

We will return to our unit on animals. This week, we will focus on farm animals, learning about the foods we get from farms.
