ACTIVITY-AT-HOME:

This week, we will have our iLearn tests for Math, ELA, and Science. The students have been working hard and I believe they will do their bests. We reminded them that these tests need to be taken seriously in order for the teachers and the school to figure out whether the textbooks are helping prepare them for these tests or not.

Please remind them to always do their best but NO tests defines them. PLEASE return their encouraging notes I sent home in their Friday folders by Monday, 4/13. Please include and special treat you signed up for. Have a wonderful week and enjoy this amazing weather!
