Phonics and Handwriting

We started learning a new vowel rule with the help of our friend Bossy R last Friday. We will continue learning r-controlled vowel rules this week, focusing on ar and or words.

We are shifting our focus from decoding words to reading with fluency. We are working on sounding out words silently and reading the sentence as a whole instead of four or five individual words.

Heritage Studies

Gardening is one of my favorite hobbies. My family enjoys eating foods we have grown ourselves. With the different parts of a plant that work together and the various needs they supply, plants are an amazing creation and a wonderful display of God's glory. This week, we will learn about the parts of a plant and the life cycle of a plant.

Bible

Peter is one of my favorite people to study. Watching him grow in his faith throughout the New Testament is an encouragement. We will continue to follow him and other disciples as they share the Good News.

Memory verses for the week

2 Peter 3:9

Review Acts 1:8

Math

We are finishing our review on measurement this week. We have had a lot of fun using standard and non-standard forms of measurement to measure items around the room.

Important Dates and Reminders

April 8- No School

April 12- Early Release

April 24- Kindergarten graduation pictures
(information will be coming home soon)

May 3- Field Day

May 10- Kindergarten Graduation

May 17- School Musical

May 23- Last Day of School

Kindergarten Fun
