

## What We Will Learn This Week

### Bible-

We review creation, the fall, and the redemption. We will also read about God's revelation to John with the promise that God will make all things new.

### Language Arts-

Our last book of the year is a short chapter book, following the adventures of Hopper, Hopscotch, and Dottie. Our last book will review all of the phonics rules we have learned this year.

### Math-

We will review counting sets of objects and addition and subtraction.

### Heritage Studies-

Dreaming of summer vacation? We will be learning about different types of vacation destinations as our kindergarten friends, the Vicks and the Hunters, head out to various places around the United States. Our country is full of amazing places to visit, including sandy beaches, forest trails, and historical destinations.
