

## What We Will Learn This Week

### Bible-

We will be studying the life of Paul, following his missionary journeys.

### Language Arts-

The class did a great job reading words with r-controlled vowels. We will continue learning about r-controlled vowels with er, ir, and ur this week.

In handwriting, we will review identifying and using correct punctuation.

### Math-

From now to the end of the year, we will review the skills we have learned. This week, we will focus on addition and subtraction.

### Heritage Studies-

We have come to one of my favorite units in science, gardening. My parents taught me gardening skills at a very young age, which I continued with my own daughters. I love plants and love seeing God's glory shine through the lifecycle of plants. We will learn about various plants, the plant lifecycle, and the tiny garden helpers help the garden grow.

# Tales From the Classroom

April 13-17

## Memory Verse

Acts 16:31
