MY JOURNEY

My journey has been full of unique and diverse experiences allowing me to build a strong portfolio of work, skills and expertise. I have worked on everything from designing and building out video production studios and creative labs to building world-class creative teams and in-house business models - all to deliver agency-quality creative and strategy.

VALUES

I strive every day to earn trust through delivering my best, by driving authentic (and sometimes difficult) conversations, creating a truly diverse environment where everyone feels welcome + is inspired to deliver creative excellence, and leading with respect and loyalty to the brand and people that I represent.

LEADERSHIP STYLE

People are at the core of everything I do. Empowering an individual to create and deliver at their highest potential gives me the greatest satisfaction.

“

Darren is a smart, thoughtful creative leader who always has the highest quality as his ultimate goal. His ability to connect with designers and coach them through inspiration is unmatched.

Amber Carabello,
Vice-President, People & Culture

There are a lot of creative people in this world, but it's rare to find someone with the breadth of skills and experience Darren brings to the table. From design to storytelling to immersive experiences, Darren brings brands and their messaging to life in ways that stand out among the rest. He's done this for small firms as well as some of the biggest brands on the planet. On top of that creative ability, he's one of the kindest teammates and best collaborators I've known. In a room full of passionate voices, he helps to ensure each one feels welcome and heard.

Crystal Lauderdale
Vice-President, Marketing and Communications

”

"Darren is an incredible talent leading and inspiring his creative team and those around him. Darren is nearly solely responsible for the explosive seven-year growth in the in-house creative services including award winning video. He navigated the politics of a large multi-national Company, while focusing on quality deliverables and managed growth."

Clark Christianson, Senior Finance Director

“While working under his leadership, he consistently guided me and my colleagues through complex creative projects with a thoughtful, detail-oriented approach. He is one to prioritize the quality of the work above all else, but he never fails to maintain team cohesion at the same time. His experience across various verticals and media has given him the ability to provide insightful contributions in all parts of the creative process - from art direction, to copywriting, and even video production. The atmosphere Darren creates in creative teams allows for its members to naturally think and act at the top of their potential.”

Chris Harris, Video Production Lead
