Speed Lines

Overview

The **Speed Line** is the solution to create a high volume point of sale. Cold inventory, POS efficiency and experiential sales have all been addressed in our new designs. Features include integrated walk-in coolers, C-Store Alcoves and POS Stations. All components and structures mount onto a **portable leveling base** to allow installations in non-traditional locations or just replace under-performing, traditional food and beverage carts.

Transform Underutilized Retail Space Into A High Volume Point Of Sale
