

Why Veterinarians Believe in BEMER

Dr. Marge Lewter
BEMER Distributor | Blacksburg, VA

"The BEMER Horse-Set is a benefit to healthy horses as well as those with injuries! We used BEMER as part of a conditioning program for my daughter's endurance Arabian and he received the Best Conditioned award and first place in [my daughter's] first endurance ride. Personally, I have a BEMER Horse-Set, but I believe daily use is better than a one-time use for a veterinary practice. Therefore, I make my unit available to clients for them to try it out before investing themselves."

Dr. Katarzyna Zukiewicz
BEMER Distributor | Cardiff, CA

"Microcirculation is crucial for proper body function, as well as warm up before exercise and recovery afterwards. The BEMER Horse-Set activates microcirculation, helping horses to recover and regenerate quicker! I think it is so beneficial for horses to use BEMER therapy as a part of their everyday program!"

Dr. Marlice Vonck
BEMER Distributor | Lexington, VA

"As a holistic veterinarian and therapist, my goal is to address the whole horse, and make sure that all the parts are working well. The end goal is for the horse to thrive both in health and their well-being! The ideal healthcare is preventative. When my clients use the BEMER Horse-Set on a routine basis, it helps their horses better cope with stressors such as athletic demands, management conditions, transportation, environmental toxins, nutrition errors, trauma and injury and with the aging process itself. All these factors decrease blood flow at the level of microcirculation and BEMER helps restore that."

*BEMER Horse-Set is in no way a substitute for medical care. It's not intended to diagnose, treat, or cure any medical condition or disease. BEMER does not replace treatment by your veterinarian. Please consult with your own veterinarian if your horse has a medical concern
