

# The Jester Puzzle Solution File

\*One Puzzle Per Page

Note: The puzzles you solve are used to eliminate suspects from the King's Court Technologies handbook

# Snakes and Ladders

Solution: I exist alone but I live for the king's entertainment.

Use this to eliminate everyone who is coming to the party with a +1

# The Fool

Solution: plenty of royalty here but no jester

You should have a chessboard flyer from King's Court Technology with several people's photographs. You can use the solution from The Fool message to eliminate these as suspects.

# Jester Cap/Numbers and Letters

Solution: I always make sure the table where I sit I'm fully surrounded by people that I trust. If there are gaps that creates weakness and if I can't trust you then you are literally dead to me.

Use the seating chart to determine which tables have empty seats. Eliminate those people at tables with empty seats.

# Waiter Interview

Solution: I have a bad habit of speaking in pig latin when i'm drunk. Someone spiked my water bottle. I think the reason they did it is because they needed my badge. It accesses the service elevator. I lost it a couple of hours ago. I wasn't even really paying attention. I was too busy trying to get the phone number of the lady with glasses who works in customer service. Not the one with three names. She has spent all night on the dance floor. By the way the elevator code is found on my badge. It is one to one.

This eliminates the lady with glasses who works in customer service who was on the dance floor all night. It also provides you with the password for the elevator which are the numbers between the ones on the waiter's badge.

# Opening the Elevator

Code: 8792

# Unlocking the Safe

Code: 1145

# Unlocking the Phone

Passcode: voila

# Using the Keypad that Unlocks the Storage Room

Code: 434687

# Places to Take Note of When Eliminating Suspects:

1. Snakes and ladders solution
2. Numbers and letters/jester's hat solution
3. Unlocked phone contents
4. Those who are +1 on guest list vs those who come alone
5. Those who aren't on the guest list at all

# Decoding the Shredded Document

The subject line says to string lines 2 and 4 of key together then flip end to end.

Lines 2 and 4 together would be: monlightabcdefghijklmnopqrsuvwxyz

Flipped end to end that would be: zyxwvusrqpkjfedcbathgilnom

Use that to decode the alphabet:

zyxwvusrqpkjfedcbathgilnom

abcdefghijklmnopqrsuvwxyz

So z=a, y=b, and so forth until you get to the end where m=z

This will give you what you need to decipher the shredded note's contents.

Here is what the note should read once decoded:

I have a buyer. Benjamin Franklin is walking into the bank. Do you follow?

Without question.

Absolutely.

Great. Artemis at BVI is ready to pay up.

# Final Solution

Final Unlock: franklincampos
