

Traitor Hint File

*one puzzle per page

Accessing the Safe:

1. The message in a bottle says to use the journal entries about mythical creatures.
2. Consult Armstead's journal and find the number in each journal entry associated with each mythical creature.
3. Use those numbers in the order they appear to unlock the safe.

Puzzle Found in the Safe

1. You are looking for a pattern in the numbers that will help determine what the value of the missing space should be.
2. Analyze each row of numbers and see if you can manipulate the first two numbers to obtain the third number.
3. Multiply the first and second numbers in each row. Then, subtract the first number to get the third number.
4. The solution to this puzzle is a room number.

Kraken Casino

1. Use the loose playing card with this and determine what the name of your hand is.
2. Consult the Will Street Notes for help.

Sea Dragon Lounge/Pirate Skeleton

1. Use the conversion chart gained from the Kraken Casino and the conversion chart in Captain Armstead's journal to find the value for each commodity listed (silk, salt, rice, tobacco).
2. You are looking for a 4 digit code.

Siren/Mermaid

1. Use the trade route directions in Captain Armstead's journal to find three locations on the map (take note of their numbers).
2. Follow the directions on the rum bottle label (gained from pirate skeleton unlock) to determine the three final numbers.
3. Those numbers should correspond to a name on the ship's crew manifest.
4. Use the name of that sailor to unlock the file.

Leviathan/Circular Puzzle

1. Take information from the Siren unlock and use with the Leviathan Pool puzzle.
2. Take the circular disc and find the symbol mentioned on the unlock (skull, parrot, key, anchor).
3. Use the underlined arrow to point to the number mentioned on the Siren unlock (ex: skull 1....the arrow with the line under it would point to the number 1). See what number the other arrow points to.
4. Go in the order of the graphic until you have 4 numbers.

Cryptex

1. Once you've solved the circle/Leviathan puzzle you will have what you need to solve the Cryptex.
2. Notice that there is a line of letters marked by an arrow on each end. This is the starting point.
3. Use the directions gained from the Leviathan puzzle to manipulate each column of letters the appropriate number up or down.

Anonymous Tip

1. The tipster will only reveal the secret information if you can answer the question. The answer can only be found at the end of the treasure hunt.
2. Using the information found at the end of the treasure hunt (Cryptex unlock) determine the name of location where the captain's treasure was originally stolen from?
