After Servicing The Medical Community For Over 20 Years We Are Now HIPAA Compliant!

Being Security Minded is a big part of our billing services.

Dental and Medical Practices will know that their patient records (PHI) are handled with the utmost security as our standard best practice procedures.

All communications are secured and auditable from phone conversations, to data encrypted files, faxes, SMS texts, etc.

Any communication between doctors, insurance companies, clients, etc. are all logged to meet HIPAA requirements.

All processed data files and records are stored and backed up in the cloud meeting SOX compliance, Sarbanes Oxley Act.

By utilizing Software-Defined Networking (SDN) we are able to meet New Client Data Laws such as GDPR & CCPA requirements.
