

Résolution 2022-11-R04

Système de téléphonie

Attendu que jusqu'à présent, aucun système téléphonique n'est disponible au bureau de la section locale et que les membres doivent donc nous contacter via nos téléphones personnels;

Attendu que le droit à la déconnexion et à la vie privée se doit d'être au premier plan de nos actions.

Il est résolu de recourir à la compagnie de téléphonie Ooma pour un service de téléphone VOIP, suivant un examen rigoureux auprès de plusieurs compagnies afin de déterminer le meilleur rapport qualité-prix.

Il est de plus résolu de procéder à l'achat de deux appareils téléphoniques sans-fil auprès de cette même compagnie, afin de s'assurer de la compatibilité avec le système.

- [One direct dial number per user](#)

All-inclusive price

Each Ooma Office account includes a local and toll-free phone number of your choice, a virtual fax extension, and a conference extension line. Plus, your monthly user cost will never increase.

Mobile App

Stay connected with the Ooma office Mobile app. Have your mobile device or a group of mobile devices ring simultaneously anytime someone dials the main business number. Need to text, its free and included with your account.

Forward calls on Device Outage

Never miss a call because of a connection issue. In the event of a power (or internet) outage, your business calls will auto-forward to a specified number preset on the account. Each user extension can do the same.

Call Park

Move an active call to the call queue or pick it up from another Ooma Office extension. Transferring a call to another extension has never been easier.

Easy Setup

Do-it-yourself installation sets up in minutes. If you need help, our California based team is ready and available, 24/7 365.

Multi-Level Virtual Receptionist

Ooma office can manage inbound calls with more automation and routing options than ever before. With before, during and after-hours functions, your clients get the right prompt at the right time.
