FOREWORD

NOLTE
KÜCHEN

Nolte Küchen is a German family company that has been in existence for over 65 years, and is now in the fourth generation. During this time, not only has the company continued to grow to become one of the most important brand manufacturers of fitted kitchens, but there have also been numerous innovations that have subsequently become the industry standard.

Our employees' experience and expertise is a key factor in our success. The kitchen is more than a business to us: it is our passion, and one that we cherish and develop anew every day. With our experience in international projects, we know we are the right partner for your ideas.

You can be sure we will always have the right solution for you, for any budget, and room size and any design requirements. Challenge us – we look forward to your project!

STATEMENT

A RELIABLE
COMPANION FOR
QUALITY AND
INNOVATION

The Nolte Küchen brand stands for exceptional quality, variety and service, reliability and continuity. Good is not good enough for us. We want to be better than the average. This applies to the materials we use as well as to the concept, technology and design. Our management ensures that we live up to this claim with both a sense of proportion and vision. For over 65 years, Nolte Küchen has developed and flourished under the leadership of the Nolte family. This trend will continue in the future.

QUALITY MADE IN GERMANY AT HOME IN THE WORLD

Established in 1958, Nolte Küchen has grown to become one of the foremost manufacturers of fitted kitchens. Over the decades, the company has introduced a wealth of innovations that have set new benchmarks and become industry standards worldwide. Our Nolte kitchens are manufactured in Löhne and Melle on around 113,000 m² of production space. Our quality assurance "Made in Germany" is part of our worldwide success.

Every day, 880 Nolte kitchens are produced, amounting to approximately 18 million units annually. These are distributed across more than 60 countries, each one carefully tailored to meet the unique needs and preferences of local markets. Our customers thank us: For the fourth time in a row, Nolte Küchen was voted the most popular kitchen brand in Germany. A success that is only made possible thanks to our 1400 expert employees.

NOLTE UK OUR SHOWROOM NETWORK IN THE UK

Nolte Kitchens Retail manages a unique network of 15 showrooms across the country – the only Nolte-owned showroom network worldwide. These showrooms are staffed with talented kitchen designers who offer direct-to-consumer sales. Over the past 12-18 months, our showrooms have experienced remarkable growth, achieving more sales by the end of July 2024 than we saw in the whole of 2023. This success underscores our strong establishment of the Nolte Küchen brand in the UK's mid-premium kitchen market.

Nolte Kitchens Contracts caters to house builders, property developers, architects, and interior designers on a project-by-project basis. Our recent acquisition of BKNC, a former long standing partner, has expanded our workforce to approximately 80 employees and enhanced our internal capabilities, including the addition of an in-house warehousing and logistics facility in Wrexham. This acquisition not only strengthens our contract projects division but also improves service delivery across all Nolte UK business areas.

To support our ambitious growth plans, Nolte UK has launched a franchise model, which offers aspiring entrepreneurs and kitchen designers the opportunity to open a turnkey Nolte Küchen showroom armed with comprehensive support from our UK head office, including design and installation, finance, HR, marketing, and operations.

Additionally, our **Independent Retailer** division continues to grow and expand its network, boosted by our recent participation in KBB Birmingham – our first exhibition in four years. This event provided an excellent platform for Nolte Küchen to reinforce its presence in the KBB sector and showcase the support we offer to our existing customers.

NOLTE FZE

OUR COMPETENCE CENTRE IN DUBAI

Nolte FZE, established in 2011 in Dubai, United Arab Emirates, serves as the primary export subsidiary of the Nolte Group, Germany. Strategically positioned as a central hub, it distributes Nolte's high-quality kitchen and furniture solutions across the Middle East, Africa, and Asia.

Nolte FZE's operations span over 30 countries, featuring more than 75 exclusive showrooms. This extensive network enables the subsidiary to offer unparalleled consultancy and design services, ensuring that both homeowners and developers receive the optimal kitchen and furniture solutions tailored to their specific needs.

Nolte FZE has distributed over 65,000+ project kitchens in over 350 prestigious projects with varied design needs and 25,000+ retail kitchens. The company highly qualified team supports world-wide partners and industry specialists by providing comprehensive consultancy, design advice, and operational support. This robust backing fosters Nolte Küchen brand expansion and ensures consistent quality across all markets.

Nolte FZE's comprehensive range of services includes business development, sales order processing, design, marketing, finance, administration, and logistics management. The company dedicated international managers assist country partners with retail and project sales, while the design team aids in kitchen design, production, space planning, and showroom setup. Strategic marketing efforts focus on brand expansion across diverse regions, supported by the finance team's expertise in budgeting, sales planning, and event management. Additionally, the logistics team coordinates pre- and post-shipment activities, ensuring seamless operations between Nolte Küchen German factories and international partners.

” At Nolte Küchen we combine our passion for high-quality kitchens with a profound sense of responsibility for our environment and future generations. “

Nolte Küchen sets new standards in the kitchen furniture industry as the first company to already meet the requirements of the CSRD reporting obligation.

OUR COMMITMENT TO...

THE COMPANY

As a matter of good corporate governance and the values that are associated with this, we have established resilient structures, processes and partnerships over a period of many years. High quality, modern aesthetic appeal and sustainability coupled with attractive value for money are criteria that are always factored into our product range. In this way, for instance, over 99 % of the wood types we use is based on the principles of sustainable wood criteria.

THE HUMAN ELEMENT

Our members of staff are particularly close to our heart. Their dedication, knowledge, experience and inquisitiveness are what define us as Nolte Küchen. For this reason, we are pleased to assist our staff in furthering their development – both on the work side through basic and further training as well as at a private level by respecting and enhancing their work-life balance.

THE ENVIRONMENT

As a company, we have set ourselves the goal of using natural resources in a responsible and sustainable manner. Even today, our effective climate and environmental management regime lets us manufacture our products in a climate-neutral manner at our operating bases in Löhne and Melle. Nolte Küchen's main energy sources are certified green electricity as well as our boilers which are operated with offcut wood from production.

THE SOCIETY

Since Nolte Küchen was founded, we have cultivated close ties with the region and play an active part in fostering its well-being and growth. We can look back on a long tradition of social commitment and have placed great emphasis on this from the very first day. For instance, we help people and regions in situations of need, e.g. educational institutions, associations, institutions and foundations that focus on protecting children. Our credo: support is given where support is needed.

The grounds of Nolte Küchen have been home to local bees since the summer of 2023, and they have already brought in their first nectar into their hive. They not only provide delicious honey but are also indispensable pollinators, making a significant contribution to the preservation of many plant species.

This is where you can discover the
**NOLTE
SUSTAINABILITY
REPORT**

OUR AWARDS

In implementing our sustainability activities, we attach particular importance to acknowledged external certifications, awards and certification marks. These confirm our commitment and send out a signal.

We were awarded as Germany's most popular kitchen furniture provider at the Life & Living Award 2022. The survey focused on customer satisfaction and likelihood of recommendations.

For the 4th consecutive time, we are Germany's most popular kitchen brand according to a DISQ customer survey, which highlighted us for quality, design, value for money, range, and brand image.

We received the "BEST PLACE TO LEARN®" seal for excellent vocational training, awarded only to companies that effectively prepare young people for their careers.

PEFC certification is the world's largest standard for sustainable, ecological, and economic forestry.

The FSC® seal represents responsible forestry that meets ecological and social criteria, such as biodiversity and landscape protection.

"Furniture Made in Germany" means that design, assembly, and quality inspection are carried out in Germany, and the manufacturing process predominantly takes place in Germany.

The "Golden M" is a RAL quality mark representing tested quality, safety, and health and environmental standards for furniture.

The Nolte Küchen assortment received the RAL Emission Label Class A for low pollutant emissions.

Our kitchens undergo regular internal and external quality and safety checks, meeting the standards of the German Product Safety Act.

Nolte Küchen has been recognized as a "climate-neutral furniture manufacturer." CO₂ emissions are balanced, reduced, and offset through climate protection projects in Turkey.

The RenewablePLUS certificate confirms that Nolte Küchen uses electricity from renewable sources and supports the expansion of these energies.

The TÜV Rheinland certificate according to DIN EN ISO 9001 confirms our efficient quality management and optimized work-flows in kitchen development, manufacturing, and sales.

The German Furniture Quality Association supports the UN's 1.5-degree target in the fight against climate change.

Nolte Küchen supports the Alliance for Development and Climate to reduce emissions and compensate through climate protection projects in developing countries.

The energy management system according to DIN EN ISO 50001 improves our energy efficiency and reduces energy consumption and CO₂ emissions.

OUR CORE PRODUCT RANGE

A STRONG PARTNER IN ALL MATTERS

Our core product range also includes furniture for the living area and utility room. All ranges and color decors from our kitchen collection are also available for this furniture.

nolteno is the upgrade for Nolte kitchens. With exclusive fronts and fascinating details, a nolteno kitchen turns rooms into a statement and is an expression of individuality and freedom.

With our Nolte SPA collection, we offer high-quality furniture for the bathroom area. The ranges and color decors of our kitchen collection are also available here.

NOLTE KÜCHEN

LIVING IN THE KITCHEN...

... is a message you can take literally where Nolte Küchen is concerned. Here you will find everything to make your dream kitchen come true: to suit virtually any budget, any expectation and always in top quality – made in Germany.

Nolte Küchen – synonymous with exceptional quality, variety and service, reliability and continuity. For us, good is not good enough. Our aim: to be better than the average. This applies not only to the materials that we use, but also to the concept, technology and design – because we live kitchens.

STRONG ARGUMENTS FOR NOLTE KÜCHEN!

1

HIGH PRODUCT VARIETY

The Nolte Küchen range includes a variety of in-demand front programmes. Exclusive fronts are also available for the premium nolte**neo** product line.

3

MATRIX+

With Matrix 750, Matrix 800, and Matrix 900, there is the right cabinet height for every requirement in terms of design, storage space, and ergonomics.

4

MATRIXART

For a graphically modern overall look in an elegant design language, the kitchen can also be planned as a handle-free MatrixArt variant.

5

MATERIAL DIVERSITY

Varying material systems from reproduction to real wood or innovative stone decor are customizable to meet the customer's wishes and budget.

2

INDIVIDUAL COLOR PLANNING

The Nolte Küchen mat lacquer concept creates a harmonious image from selected tones that make every kitchen an individual highlight.

6

CARCASE "INSIDE LIKE OUTSIDE"

For a cohesive overall appearance, the carcasses in every kitchen we produce have the same decor on the inside and outside – not only for wood tones but also for all solid colours.

7

SEALED EDGE

With a decor-matching sealing edge on the front of the carcass, the doors close so perfectly that less dust enters the inside of the cabinet.

8

MORE THAN KITCHENS

An intelligently planned utility room and perfectly coordinated living area – with Nolte LIVING, space, functionality, budget, and design can be optimally combined.

9

ADVANCED SUSTAINABILITY STRATEGY

The principle of sustainability is firmly anchored in our corporate values and is lived daily.

NOLTE LIVING PERFECTLY COORDINATED LIVING AREA

At Nolte Küchen, the materials you choose for your kitchen can also be used to style your living area. In terms of visual appeal, our modern furniture lets you perfect the transition from kitchen to other spaces in the home, such as living or dining area. With great attention to detail, we think of everything and develop complete designs from head to toe. With the Nolte LIVING range, you can plan your kitchen and living area cohesively, as if they were designed in perfect harmony.

NOLTE LIVING HOME BECOMES OFFICE

The requirements for a functional and stylish home office have changed significantly. Living and working spaces are increasingly merging, and choosing the right furniture is more important than ever. Nolte offers flexible solutions: A permanently integrated workstation, for example, on a wall-mounted sideboard or a cabinet that can be opened and closed as needed.

UTILITY ROOM EVERYTHING IN PERFECT ORDER

Whether used as a storage space for household items, a room for the washing machine and more, or even as a dressing room, a utility room can be versatile and flexible. And if it's located right next to the kitchen, even better! Customize this space according to your personal preferences.

SMALL PLACES – BIG IDEAS

SMART PLANNING IDEAS FOR SMALL SPACES

Small micro-apartments offer excellent living spaces. Especially young people, who are just starting their careers or are already well established in their jobs, find a home here. With thoughtful planning, even small areas can be used efficiently. Particularly in the kitchen, clarity and additional storage space can be created through, for example, suitable wall units, railing systems, or plinth drawers. No matter how small the living space is, Nolte Kitchens has the right solution for every challenge!

Discover
the complete
brochure
here!

MATRIXART ONE

Design-oriented handleless kitchen with only one handle recess profile.

SHADOW REVEAL

A completely new contour can be created with a shadow reveal between the front and side panel.

MATRIX ZERO

for a purist look thanks to the absence of handles and handle recess profiles.

DESIGNER HANDLE

The large decorative handle stands out particularly in plain, handleless kitchens.

NOLTE NEO

ANYTHING – EXCEPT ORDINARY

Clean, purist lines. Exclusive fronts and fascinating details. Colours and materials that enter a harmonious dialogue and are in balance with practical design. A nolteneo kitchen makes spaces into a statement, and is an expression of individuality and freedom of choice. From a wide range of planning options to exclusive fronts and design elements, nolteneo opens up entirely new dimensions in individualisation.

EXPRESS KÜCHEN

SIMPLE.
MODERN.
TRENDY.

Modern and passionate — this not only describes our business and way of working, but also our diverse range of kitchens. For Express Küchen, “Made in Germany” is as important as modern design and straightforward planning – with System 15, a grid with which you yourself can plan your own fitted kitchen in a few easy steps.

As part of the Nolte Group, we – Express Küchen – produce 100% in Germany, allowing us to offer high levels of safety and reliability when it comes to quality. For us, “Made in Germany” is more than just a slogan – it is our quality standard. Based in Melle, we began production for the lower price segment in 2010. Seven front ranges offer surfaces from matte to high-gloss and a large selection of contemporary décor options, at an attractive price-performance ratio.

OUR HOLISTIC APPROACH EXCELLENCE IN PROJECT BUSINESS

1 CONCEPTUALIZATION PHASE

In the initial phase of our service spectrum, we focus on precisely capturing and implementing customer requirements. This involves a detailed analysis of specifications provided by developers, architects, or investors, encompassing:

- The aesthetic and functional design of kitchens
- The careful selection of fronts and worktops
- The integration of high-quality sanitary equipment and electrical appliances

Based on the dimensions provided, we conduct a well-founded offer calculation. This includes the conception of various kitchen types, including linear arrangements as well as L and U configurations, to ensure maximum flexibility.

2 PRECISE CONSTRUCTION PREPARATIONS

Following order placement, we initiate comprehensive construction preparation measures:

1. A thorough construction site evaluation to ensure optimal logistical processes
2. The creation of tailored installation plans for each kitchen type
3. Precise measurements conducted by experts

3 OPTIMIZATION AND IMPLEMENTATION

In this phase, our focus lies on perfecting every detail:

1. Fine-tuning of kitchen modules based on measurement results
2. Consolidation of necessary adjustments in close coordination with all parties involved
3. Precise deployment planning of our qualified assembly service partner

The implementation phase is characterized by efficiency and quality:

- Coordinated delivery of at least 20 kitchen units per shipment
- Professional goods receipt inspection and proper installation
- High-quality installation of all components, including seamless integration of electrical appliances and proper connection to prepared supply connections
- Environmentally conscious disposal management of all materials

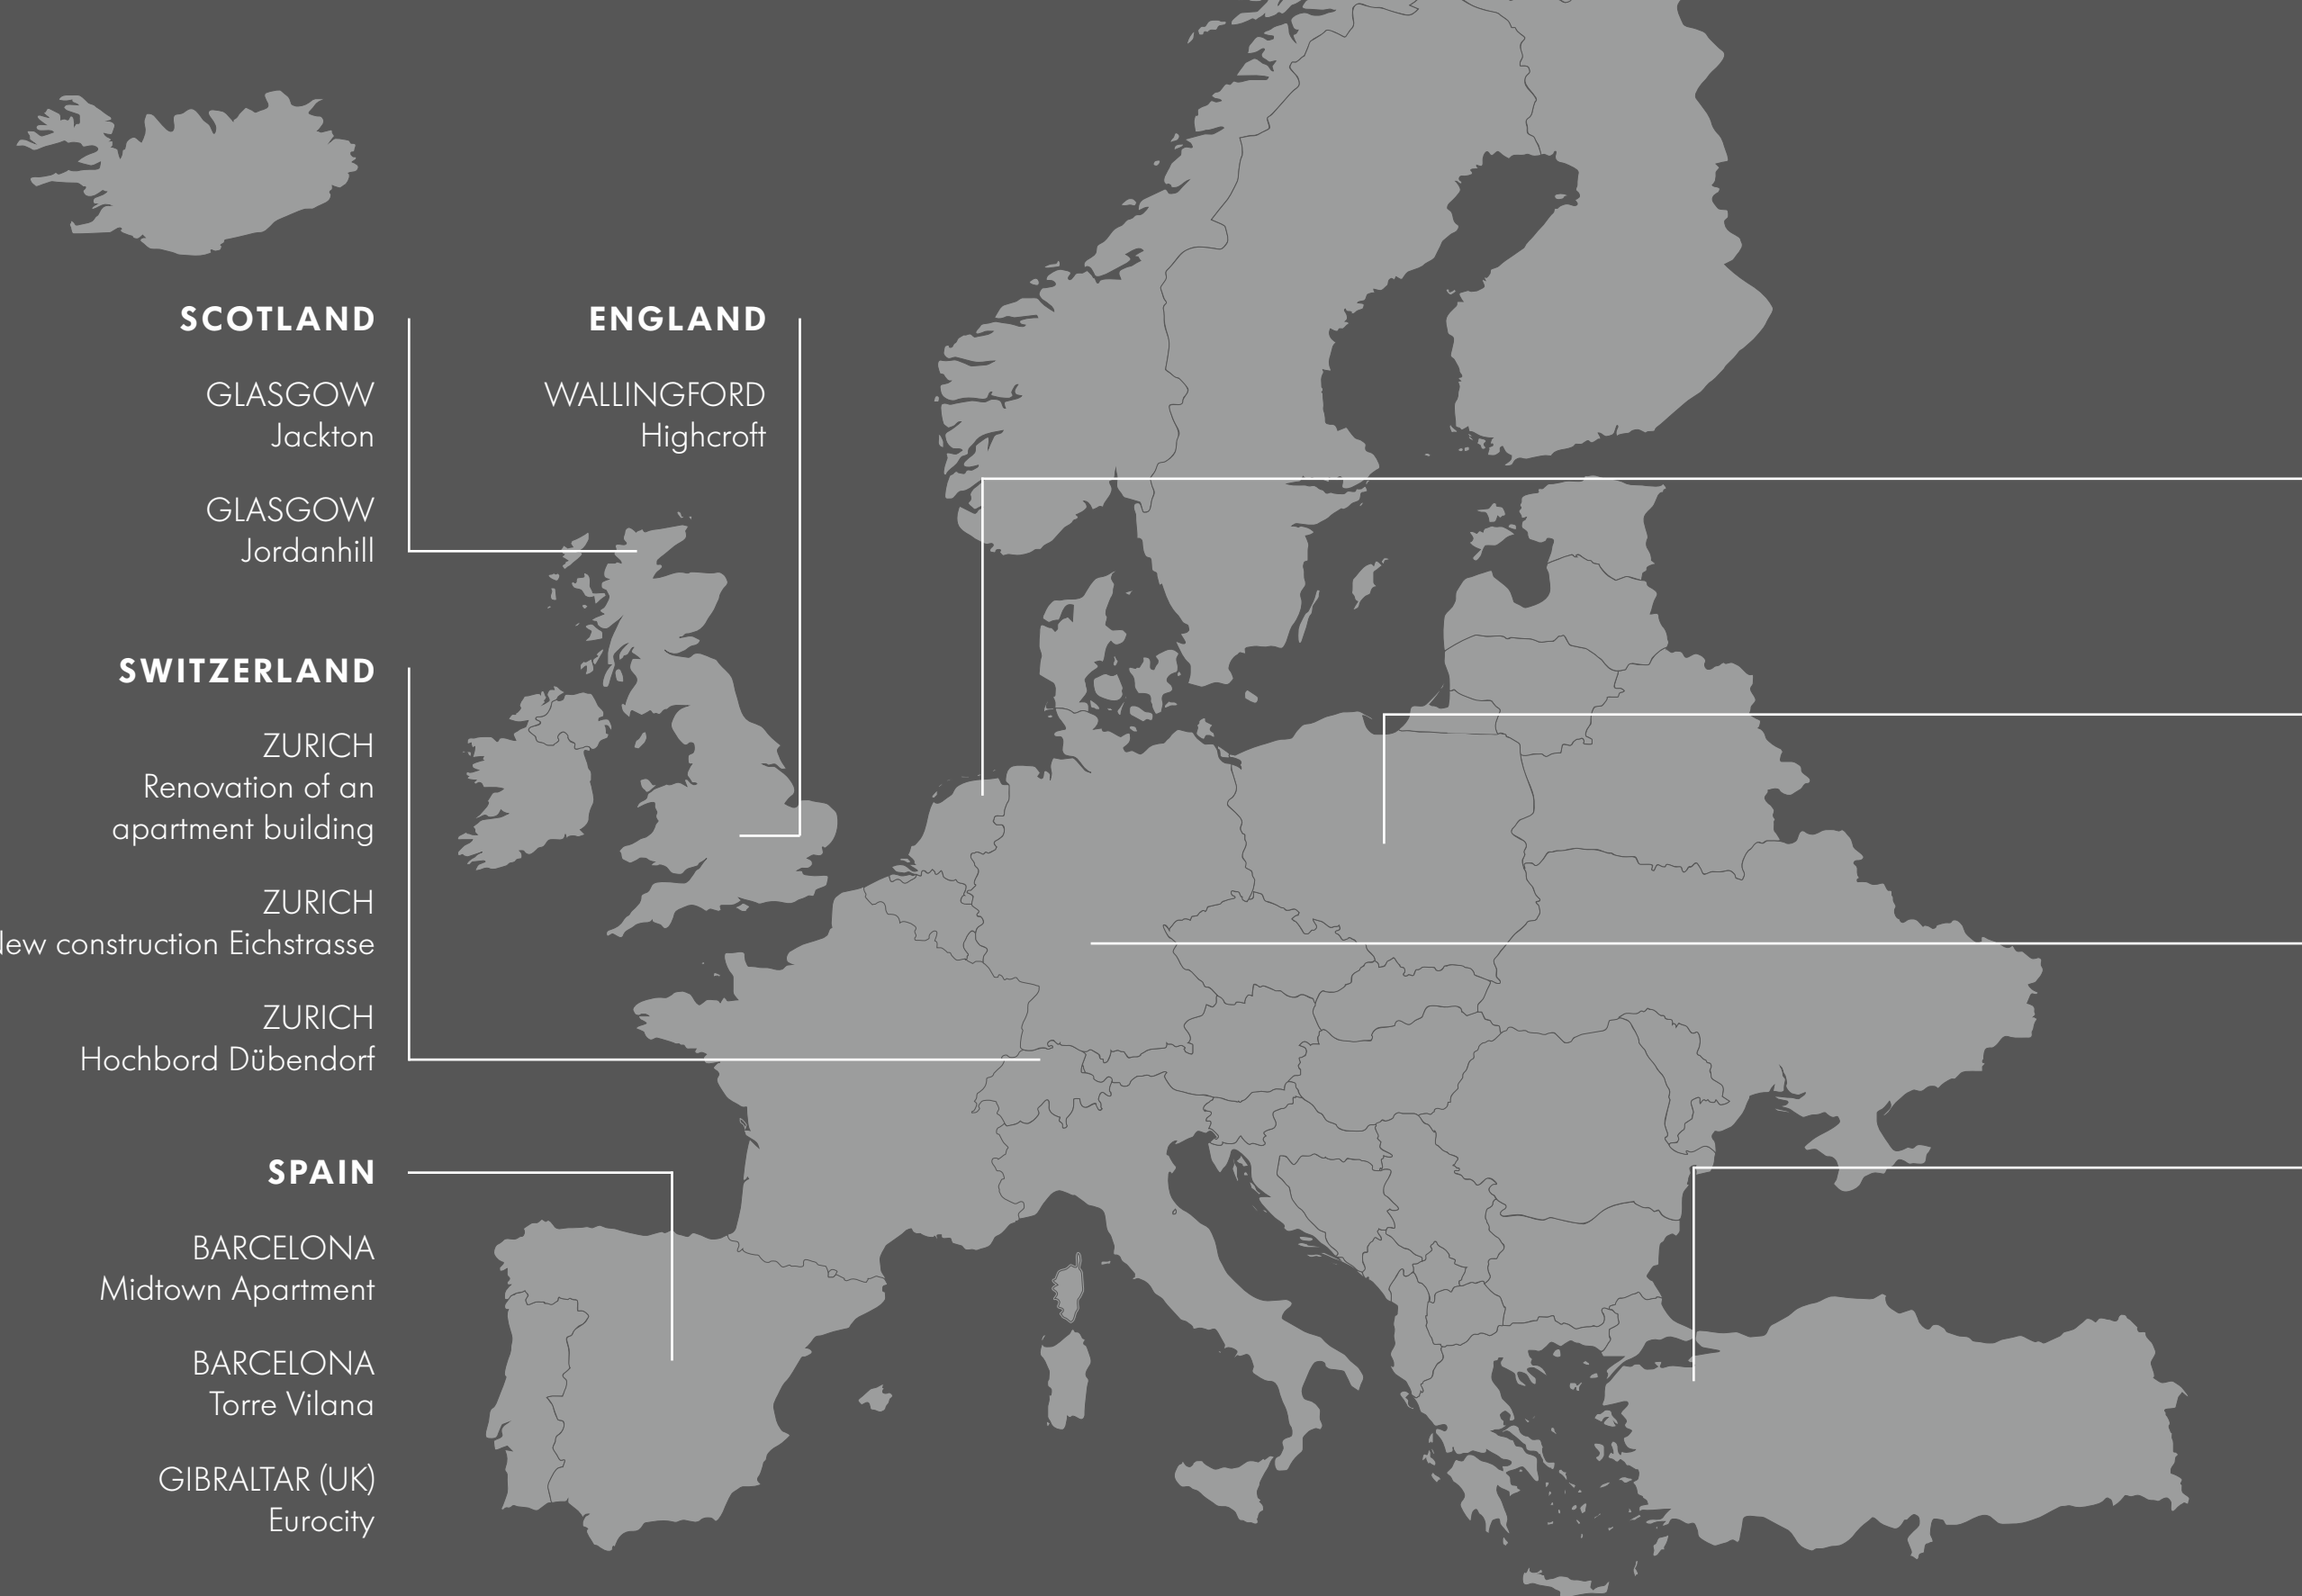

4 QUALITY ASSURANCE AND PROJECT FINALIZATION

Our service spectrum concludes with rigorous quality management:

1. A comprehensive assembly inspection to identify and promptly address any deficiencies
2. The creation of detailed documentation serving as a basis for the client's final project acceptance

Our holistic approach guarantees the highest quality and customer satisfaction at every step of the process. We see ourselves as a reliable partner, accompanying your project from initial concept to final implementation with expertise and dedication.

EUROCITY GIBRALTAR

Eurocity Gibraltar is an architectural complex located in the heart of the Westside shopping and leisure district, covering a total area of approximately 3800 square meters. The project, which began in 2022 and is ongoing, includes 339 apartments. These residences are housed in three distinctive high-rise buildings: Torre Carrara, Torre Murano, and Torre Porcelana, which stand 70 and 58 meters tall. The apartments range from studios to two, three, and four-bedroom units, all offering ample light and thoughtful layouts.

Each apartment is equipped with modern, handleless, white lacquered kitchens from the SIGMA LACK model by Nolte, complemented by Siemens appliances. The first tower, Torre Carrara, is distinguished by its design featuring a soft, white sheen reminiscent of Carrara marble. The second tower, Torre Murano, emphasizes luxurious craftsmanship with glass as the primary material. The third tower, Torre Porcelana, completes the complex and reflects the highest standards of quality. The communal areas of the complex include landscaped spaces with a swimming pool and sports facilities.

JORDANHILL

Jordanhill is an affluent area located in the West End of Glasgow, Scotland. It is known for its high-quality residential environment, consisting largely of terraced housing from the early to mid-20th century, as well as some detached and semi-detached homes and modern apartments. Jordanhill is home to the renowned Jordanhill School, which consistently ranks as Scotland's top-performing state school. The school is unique in the Scottish education system as it is directly funded by the Scottish Government, rather than the local authority, providing education from primary through secondary levels.

RAS AL
HAMRA

Ras Al Hamra is a prominent residential and leisure community in Muscat, Oman, developed and managed by Petroleum Development Oman. It is a part of Oman's Vision 2040, aiming to create smart, sustainable, and vibrant urban areas. Ras Al Hamra is recognized for its sustainability efforts, having achieved LEED certification for its green building practices. This includes strategies for energy efficiency, water savings, and minimizing greenhouse gas emissions. The development incorporates solar water heaters, LED lighting, and smart technologies for water and energy management, in line with Oman's Vision 2040. The community features a range of amenities such as an international school, a five-star hotel, entertainment facilities, and a medical center. The Ras Al Hamra Recreation Club offers various recreational activities and has recently added a two-storey café adjacent to the beach.

THE FRANK BUILDING

The Frank is a building with luxurious flats, which are available in 10 different types and sizes. They have private apartments in the heart of Birmingham.

It's a Common building, that means it is creating better living through convenience and community. They keep the good parts of shared housing while removing the annoyances. Common members know their neighbours, meet new people, and save money. Being a Common member means never having to worry about cleaning, moving furniture, or splitting the bills.

The building therefore has many other facilities in addition to the flats. These include: a furnished atrium with a glass roof, restaurants, fitness areas, lounge area, lift, rooftop club room with kitchen, dining area, office space and indoor and outdoor lounges. Last but not least, there is a dog run with a lawn and a dog washing station.

The kitchen is the room of rooms.
We probably *live* more,
and more *intensively*,
here than anywhere else in the home.
It is the place where
we meet, where we encounter others.
As family or friends.
As a couple.
We *cook, eat* and *enjoy* ourselves
in the kitchen. And sometimes we have
all the time in the world as we do so.
We argue. And *make up again*.
We read, write, send emails, post messages.
And maybe philosophise a little.
And – quite secretly – the kitchen sets
the rhythm of our day.
Good morning. Then midday. Then evening.
And sometimes night ...
Which is *why we love* the kitchen.

Living in the kitchen. nolte
