**Item 25-309 Used Vacuum Technology Inc. Super 1220/750/900 Glovebox System with Gas Purifier****Price: Make Offer****90 Day Warranty for parts included**

This used VTI Glovebox Super (1220/750/900) is a single workstation system that features an integrated gas purification system (Single Purifier), a PLC controller with touchscreen, O<sub>2</sub> & H<sub>2</sub>O sensors, an electronic enclosure, large and small antechambers, foot switch, replaceable flange window, and Edwards RV-10 vacuum pump. Attainable purity of this system is H<sub>2</sub>O < 1ppm, O<sub>2</sub> < 1ppm. Gloves are not included. Vacuum Pump works well but is not included in warranty.

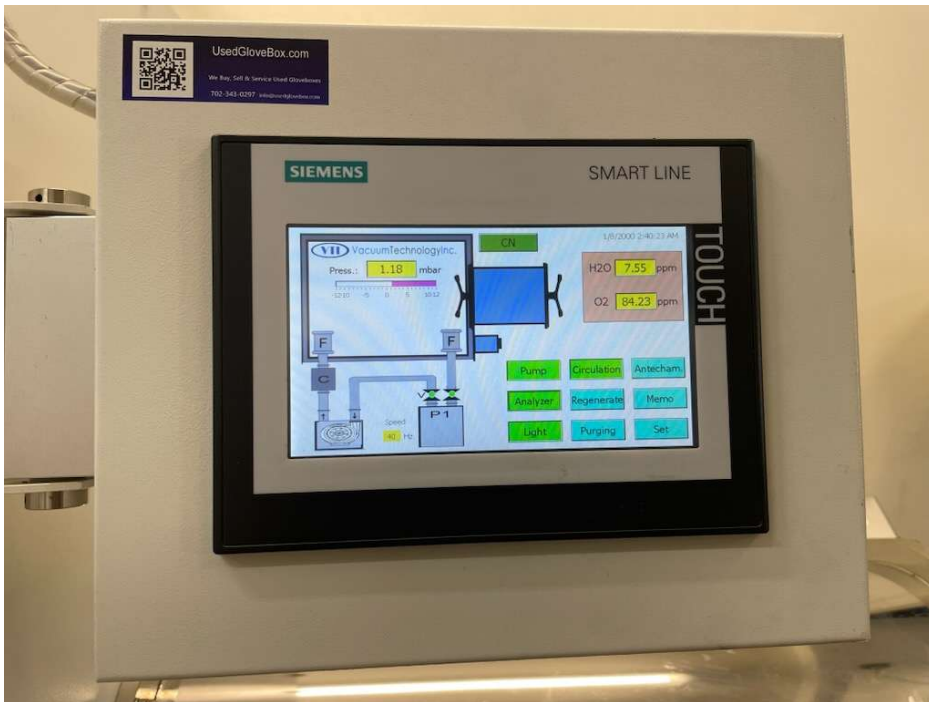

View of the O<sub>2</sub> & H<sub>2</sub>O sensors and the purge valve located on top of the glovebox.

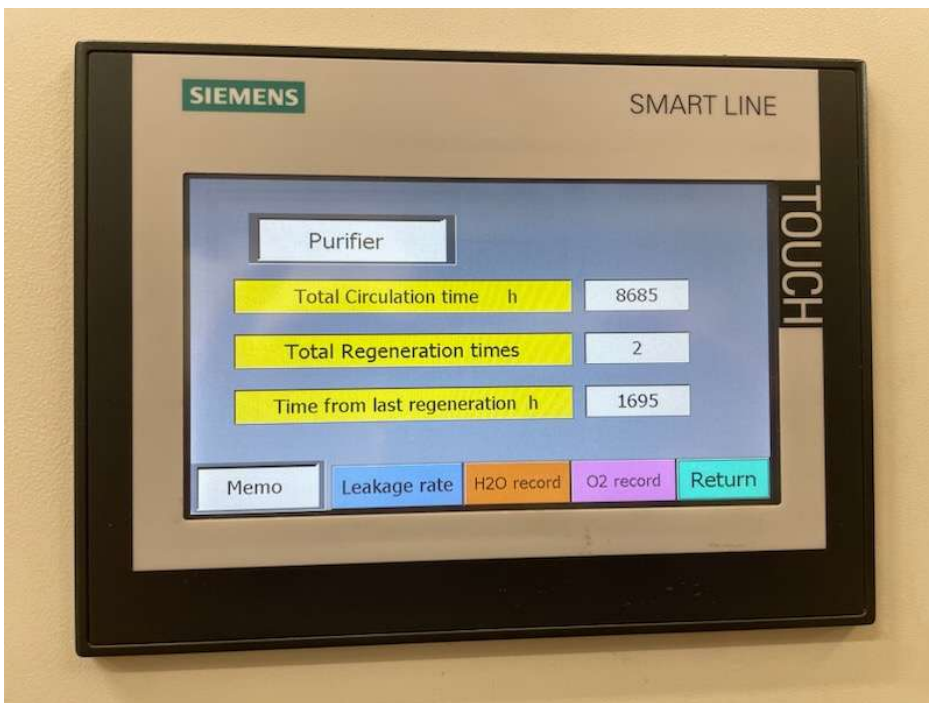

Large & small antechambers. The 110 volt electric feed thru is sitting in the large AC.

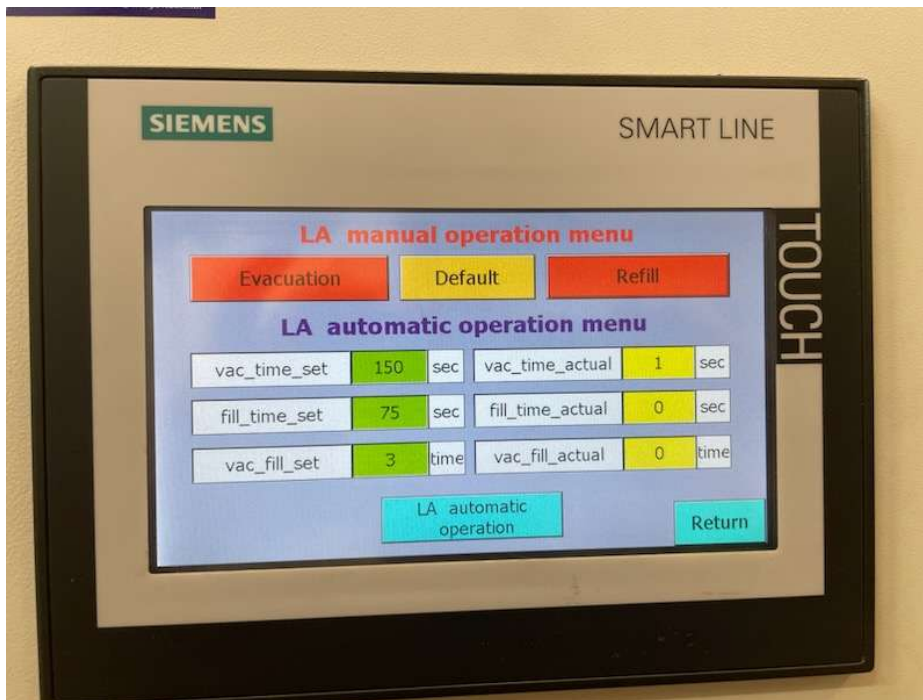

Main control screen showing blower running on compressed air (for testing purposes)

Screen showing total circulation time in hours, number and time of regenerations

Automated large antechamber control

Leak check function showing real time box pressure versus time. Flat line indicates no loss of pressure during the time period.

Electronics cabinet

Housings for the circulation blower and catalyst

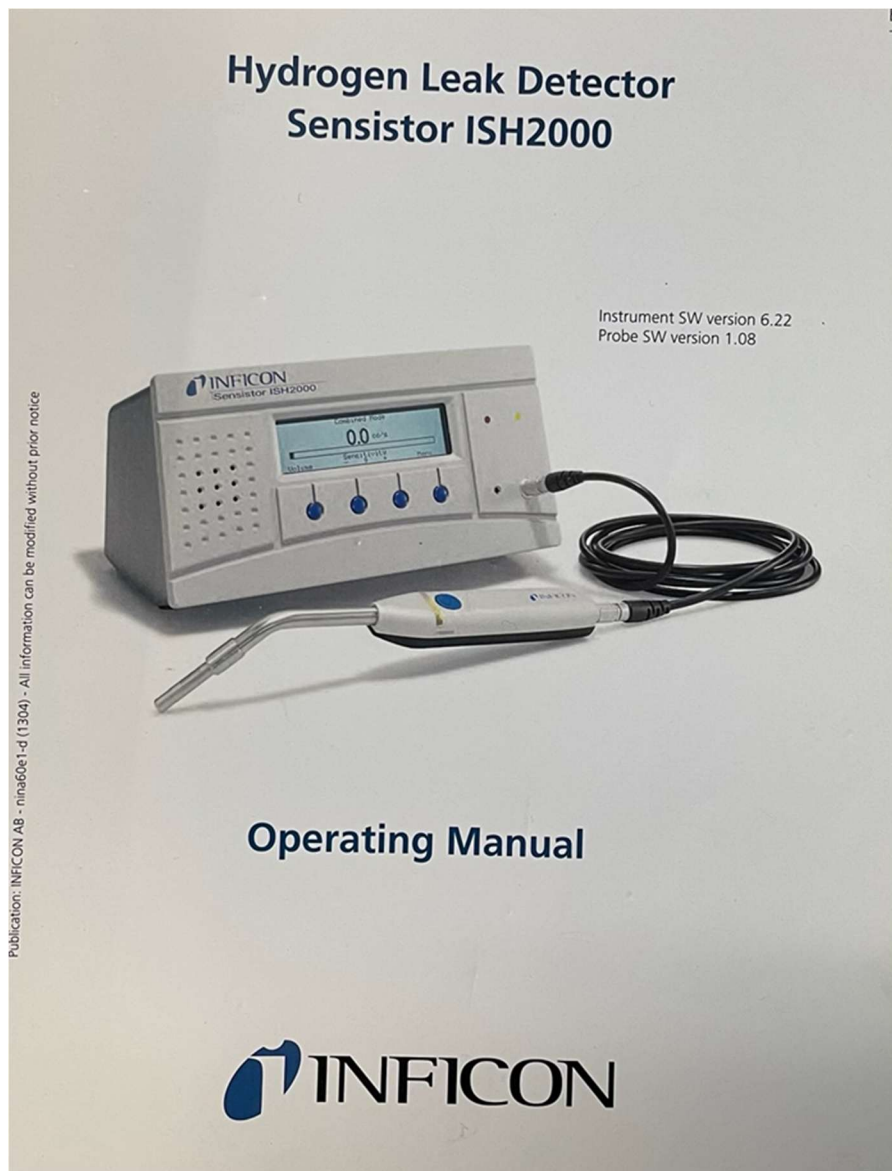

Valve manifold
