

Item# 20-245**Used 2015 Inert Clear Lab IL-2GB Glovebox Purge System with O2 Analyzer****Price: Make Offer**

The used exceptionally clean purge glovebox with automated touch screen control (no purifier) includes O2 analyzer, pressure controller, foot switch, large and mini antechamber, shelves and a fluorescent light. The system is designed to use a continuous flow of inert gas to maintain an inert atmosphere. Best for use with available liquid nitrogen or argon dewars. The system was built by the American company *Inert* (formerly known as *Innovative Technology*) will require at least one rotary vane vacuum pump larger at least 4.5 cfm for operation (not included) also gloves are not included. **Include a 90 Day Warranty on parts.**

This system is a purge system which requires a constant flow of inert gas to maintain an atmosphere. This system does NOT have a purifier with regen control.

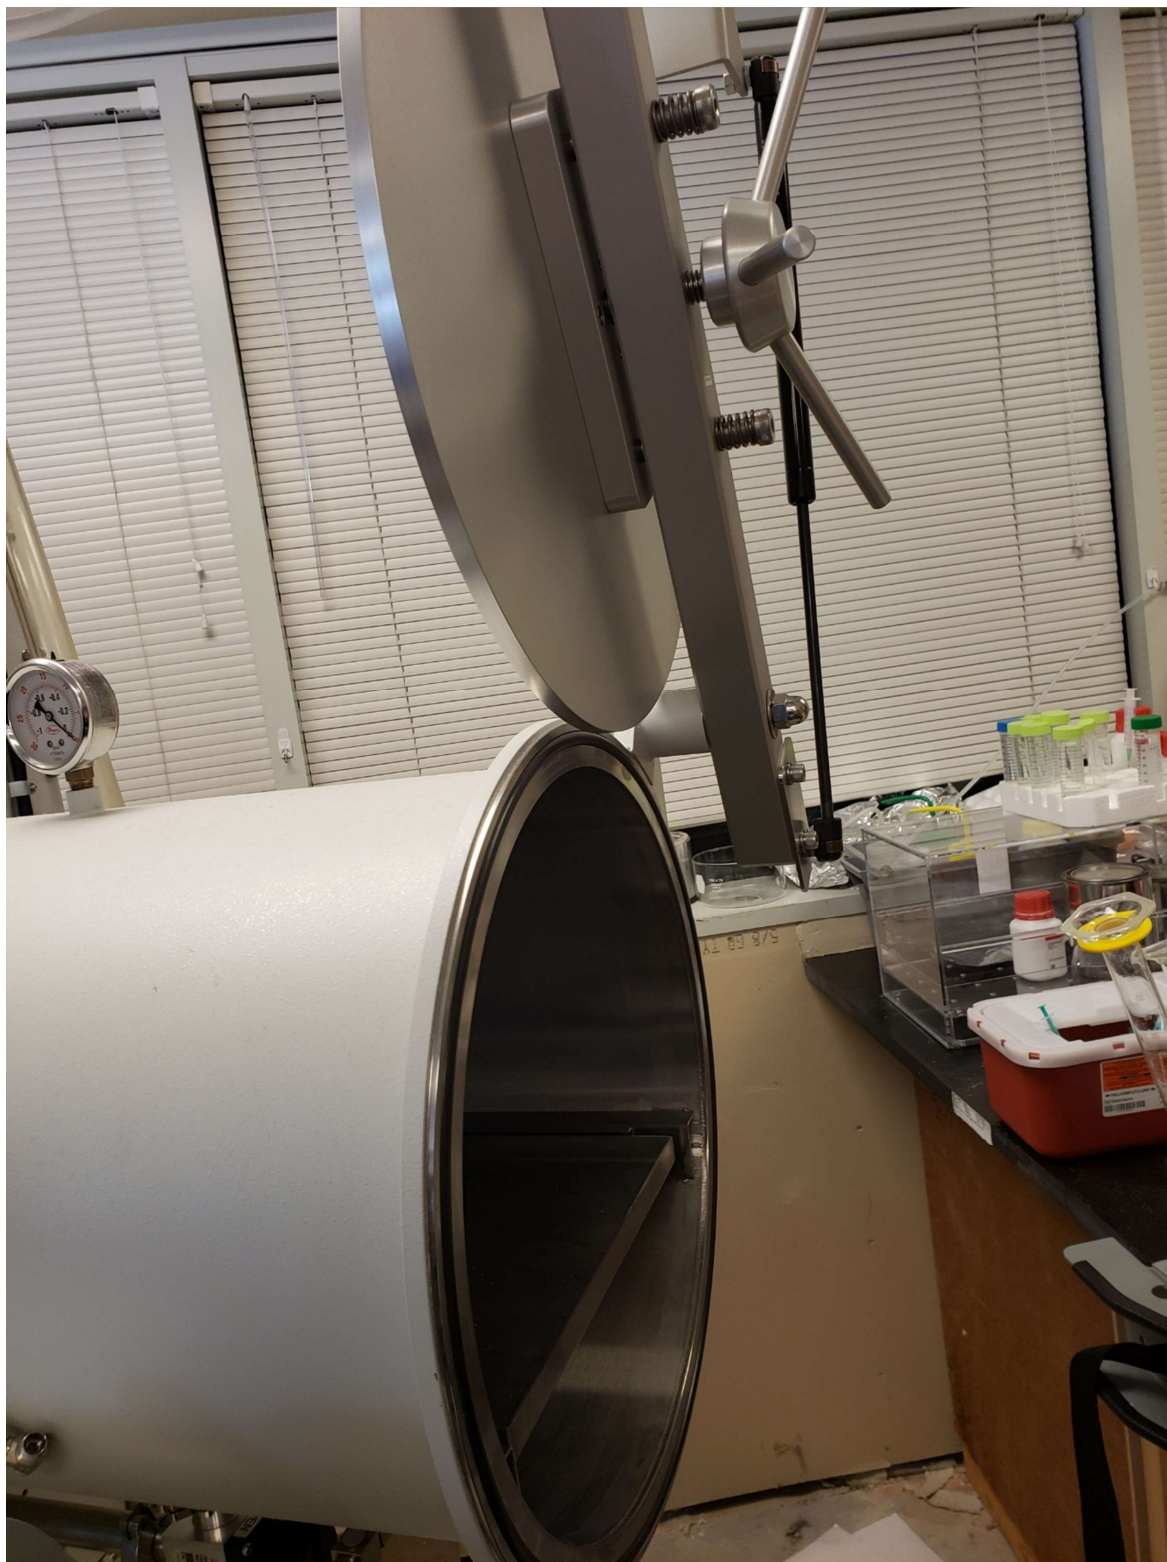

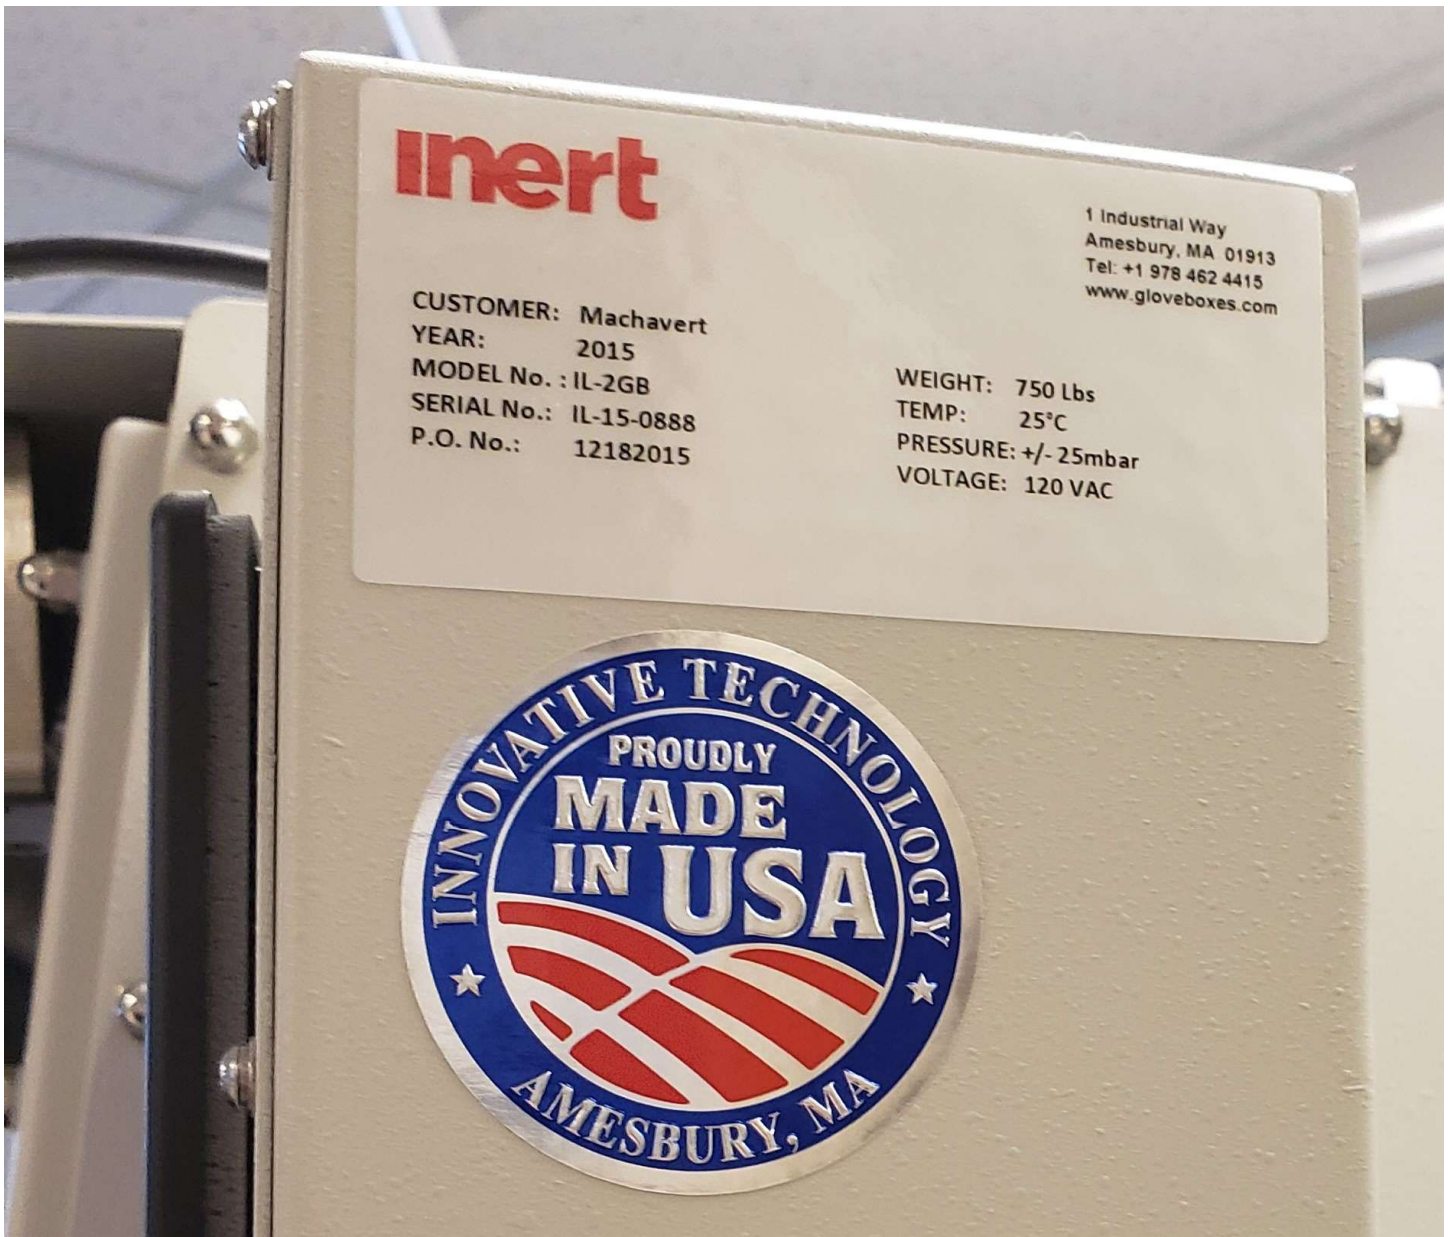

On-site installation assistance is available for an extra charge.

Free tech support is included by phone & email for as long as you own the glovebox.
