

# CAPABILITY STATEMENT

## Iron Star Solutions LLC

**Service-Disabled Veteran-Owned Small Business (SDVOSB)**

**UEI: KAJGPNXHLQ74**

**CAGE: 18Z85**

**SAM.gov Status: Active**

### Core Competencies

Iron Star Solutions LLC provides IT management coordination, administrative and program support, and logistics and asset accountability services to federal agencies and prime contractors supporting civilian and DoD environments.

Core service areas include:

- IT service management coordination and operational support
- Program and administrative management support
- Task order execution support and documentation control
- Asset lifecycle tracking and inventory accountability
- Reporting, compliance documentation, and audit readiness support
- Process improvement and workflow optimization
- Cross-functional coordination between technical and non-technical teams

We specialize in providing disciplined execution support that strengthens contract performance, delivery tempo, and regulatory compliance in structured environments.

### Differentiators

- Service-Disabled Veteran-Owned Small Business (SDVOSB)
- Low-overhead structure enabling rapid integration and responsiveness
- Documentation-first mindset aligned with compliance-driven contracts
- Experienced in supporting regulated and operationally sensitive environments
- Direct owner oversight on all engagements ensuring accountability and performance

Iron Star Solutions is structured to provide reliable task-order level support where consistency, communication, and execution discipline are critical to prime contract success.

## **Relevant Experience**

Experience includes:

- IT operations coordination and service management support
- Logistics oversight and asset accountability management
- Administrative and executive-level program support
- Reporting and documentation development in compliance-driven environments
- Multidisciplinary coordination across technical and operational teams

Detailed past performance information available upon request.
