Courthouse(s): _____

County(s): _____

Did you pay all fines and/or restitution relating to conviction? _____

Were you on probation? _____

If you were given probation, did you complete it? _____

Are you currently employed: _____

In order to successfully expungement a prior conviction, I write a brief statement telling the Judge what a pro-social person you are and/or that you are a positive asset in society and what it

would mean to get this conviction off your record and/or how is this conviction is holding you back. The following questions help me do that.

Did you go to college or trade school? If so, which one, when and what type of certification was earned?

Are you involved with any community activities, charity functions or any other activities that reflects positively on your character? _____

If yes, please describe: (this can be something as simple as coaching a children's sport or supporting little league, teaching a trade, mentoring, volunteering at your church, involved with your daughter's/son's activities, involved in you HOA to ensure a safe neighborhood, anything good and positive)

How have you turned your life around? (This can be something like; you went or go to AA/NA, you've gotten married and support a family, or you have 2 children you support and/or are in college, you started a mechanics shop and are employing people, you would like to start a business or a new career)

Most people have a reason they want to expunge, or get rid of, this conviction on their record. Please describe how expunging your record will help you in the future?
