Lykia Accessories Catalog

NEW PRODUCT YEAR 2024

Innovative Window and Door Accessories for Global Excellence

At Lykia, we are committed to delivering premium window and door accessories that meet the diverse needs of customers worldwide. Through strategic partnerships with top manufacturers, we provide innovative solutions to enhance windows and doors' functionality, durability, and aesthetics. Our comprehensive product range caters to residential, commercial, and industrial applications, ensuring exceptional quality and performance. Focusing on cutting-edge technology and world-class design, we strive to exceed the evolving demands of the global market and deliver long-lasting value.

Comprehensive Range of PVC Accessories for Construction

At Lykia, we offer a diverse portfolio of PVC accessories designed to enhance the performance, durability, and aesthetics of window and door systems in construction projects. Our extensive range includes handles, locks, espagnolette systems, scissor systems, parallel tilting systems, hinges, profiles, and fly screens. Engineered for reliability and versatility, these accessories seamlessly integrate into residential, commercial, and industrial designs, ensuring optimal application functionality.

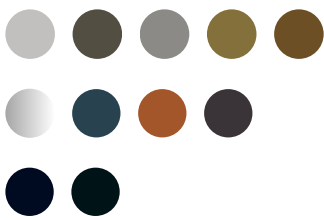

Our PVC accessories are manufactured using state-of-the-art technology, adhering to the highest global standards of quality and precision. With decades of industry expertise behind our manufacturing processes, we focus on innovation, automation, and rigorous quality control to deliver products that exceed expectations. By continually investing in advanced production techniques and research, we ensure our products offer the durability and efficiency required in modern construction projects.

WINDOW HANDLES

Our product range extends beyond what is showcased in the catalog, offering a wide variety of additional options to meet diverse needs and preferences.

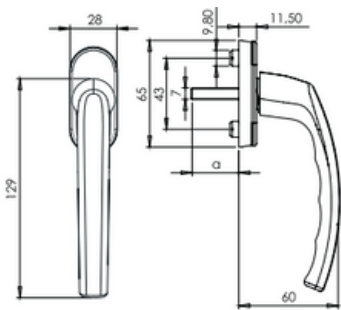

COLOR

We offer a wide selection of up to 12 vibrant and sophisticated color options for our handles, ensuring a perfect match for any design or aesthetic. Whether you prefer classic tones or modern hues, our customizable color range allows you to achieve the ideal look for your windows.

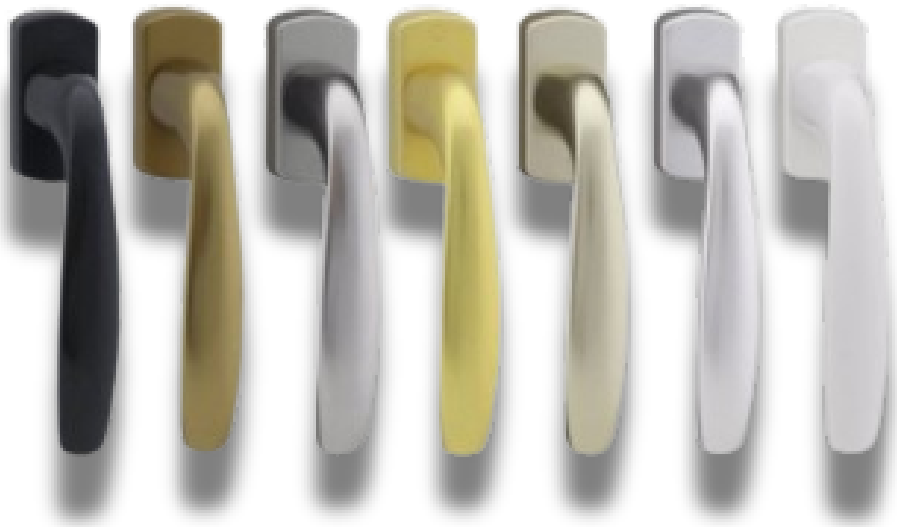

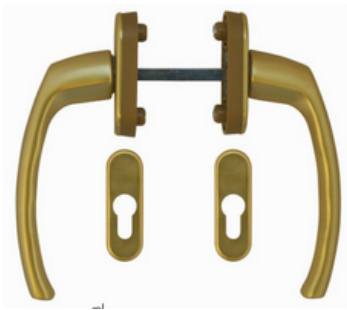

SHAPE

Our locks are designed with versatility in mind, offering options with or without a locking mechanism. They can feature a button for added functionality or a simple design for minimalist preferences. Additionally, they are available in ergonomic finger-shaped designs or standard shapes to suit your specific needs.

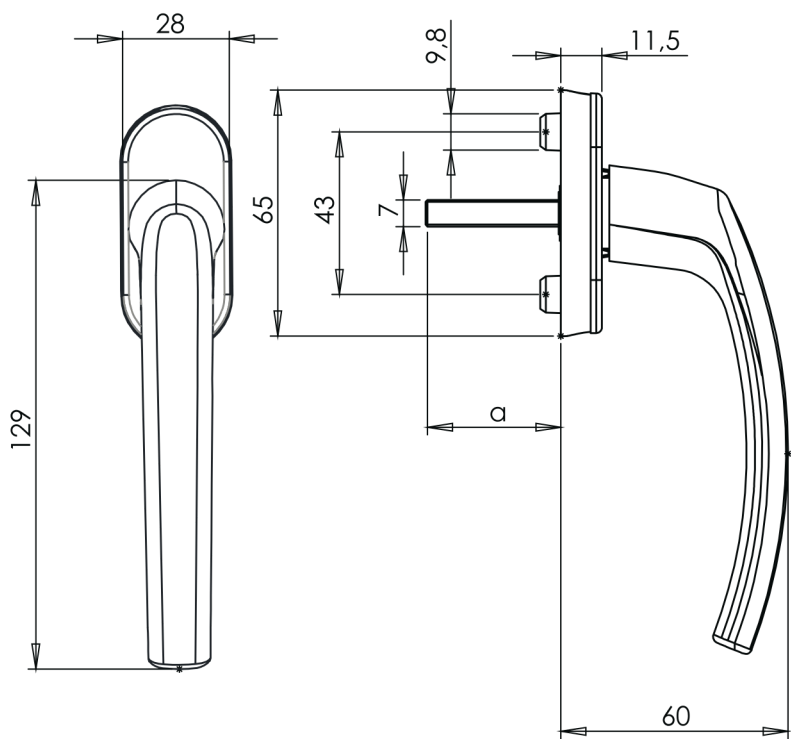

2 SIDED

Our locks are available in versatile configurations, offering both two-sided and one-sided options to accommodate various functional and security requirements.

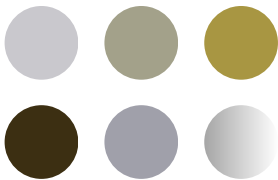

OVAL FILIZ

Model OVAL FILIZ offers a timeless design that blends elegance with exceptional durability. Crafted from premium materials, this handle ensures lasting performance even in high-use environments. Its refined look makes it an excellent choice for enhancing the style and functionality of residential and commercial windows.

A close-up photograph of a modern, curved aluminium door handle. The handle is a dark, polished metal, possibly anodized aluminium, with a smooth, reflective surface. It is mounted on a grey door frame. The background is a blurred outdoor scene featuring a body of water, a distant shoreline with some vegetation, and a clear sky. The overall aesthetic is clean and modern.
