# Job Posting

Clients can easily post new job opportunities directly onto the portal, streamlining the process and ensuring clear communication between all parties involved.

### Clocking In: Simplified & Flexible

We understand that every operation has unique needs. That's why NextCrew offers multiple ways for crew members to clock in/out, ensuring convenience, accuracy, and compliance:

### NextCrew Mobile App

- Front-Facing Photo Verification: Enhance accountability with real-time photo capture during clock-in.
- **Geo-Fencing**: Ensure clock-ins happen only within designated job locations for precise time tracking.

### **Kiosk Access**

• **IP Restricted**: Secure and efficient clock-in via onsite kiosks tied to specific locations, preventing unauthorized usage.

### **Paper Timesheets**

• For those environments that require traditional methods, we still support classic paper timesheets to maintain flexibility.

Choose the method that works best for your team!
