

SENIORS' CLIMATE WITNESS

GOOD ANCESTORS DON'T BUILD PIPELINES

TWO CARAVANS. ONE DESTINATION.

Travelling across Canada for a safe climate future.

FUND OUR FUTURE, NOT NEW PIPELINES

This September, seniors, people of faith and allies are travelling from Canada's East and West Coasts to Ottawa. Along the way, we are stopping in communities and listening to people experiencing the climate crisis firsthand.

WE ARE ASKING THE FEDERAL GOVERNMENT TO:

Invest in good jobs, clean energy and climate resilience rather than new fossil-fuel pipelines and infrastructure, while respecting Indigenous rights and reconciliation.
