

2.0

I'm feeling it, it's coming now
Finally through with it uh! It's about time
Your voice was on repeat inside my head
Been trying so hard to get rid of you
And it wasn't all fun and games

You, you made me feel like I was nothing
You, the mistake I won't be repeatin'
But you, made me better with all the sufferin'
After you knocked me down, I could finally see

(I am not a victim) I'm now immuned to all the pain
(You can't control me now!) I'm breaking free from all the chains
(I am not worthless) I'm done tryin' to understand
You you you ...don't define me!

Ya been using me, how could I be so blind
Takin' the best of me and crushin' it down
That's how you could overpower me
Using my love to get what you wanted
You're so lame!

You, you never kept your promises
You, so many lies, I lost count on em'
You, For all the times you left me hangin'
But one too many times it was too much for me

(I am not a victim) I'm now immuned to all the pain
(You can't control me now!) I'm breaking free from all you chains
(I am not worthless) I'm done tryin' to understand
You you you ...don't define me!

Do you know, do you know,
What goes around, comes back around.
You will reap what you sow,
For all the times you've put me down.
Thanks for the bumpy road
'Coz nothing can break me now.
Now, see me go, see me grow,
Until my feet can't feel the ground.
But you gotta know...

(I am not a victim) I'm now immuned to all the pain
(You can't control me now) I'm breaking free from all your chains
(I am not worthless) I'm over you and all the shame
You don't get to define the version 2.0 me!
