

Last strike

Let me tell it to you straight
Never said I would stay forever
Not gonna waste my time again
Don't wanna wait for anybody else
I'm wiser now
I learned from my mistakes
I got no more time to waste
So I took the matter in my own hands

I'm in charge now and it's the last strike
I'm gonna do what I want and nothing can stop me now (Thought you should know)
I'm in charge now and it's the last strike
I'm gonna do what I want and nothing can stop me now

You don't want me to move on
Said you need me by your side
But I was not born yesterday
You'll do just fine with another
I've got my own steps to make
It's up to me to find my way
Coz nothing's new for me over here
Time for a NEW me, a new day

So I'm in charge now
And it's the last strike
I'm gonna do what I want
And nothing can stop me now (Thought you should know)
I'm in charge now and it's the last strike
I'm gonna do what I want and nothing can stop me now

I'm done with the plan B nailin'
Just wanna get my own boat sailin'
Don't want regrets I gotta try, so...
I gotta go...

So I'm in charge now and it's the last strike
I'm gonna do what I want and nothing can stop me now
I'm in charge now and it's the last strike
I'm gonna do what I want and nothing can stop me now

So I'm in charge now and it's the last strike
I'm gonna do what I want and nothing can stop me now
I'm in charge now and it's the last strike
I'm gonna do what I want and nothing can stop me now
