

FUNCTIONSMITH, INC.

MANILA • GUANGZHOU

COMPANY PROFILE

Company Introduction

At the turn of the 21st century, in the year 2000, a group of forward thinking individuals gathered and decided to create “**functional furniture with a quality of a goldsmith**”, to cater to the burgeoning corporate market.

To best embody this philosophy, they took the first and the last words and combined it to form one single word and **FUNCTIONSMITH** was born.

STOC

OFFICE SYSTEMS

All of the STOC's designers independently enjoy product copyrights, intellectual products, and copyrights of their products, thereby increasing the designer's revenue and ensuring the continued advantages of the product life cycle.

3D laser seamless edge banding technology

STOC hopes that every good design and work will become vivid product and quality experience.

High Pressure Laminates

Accent High Pressure Laminates developed by Formica Taiwan Corp. designed to specifically serve the mid range market.

Accent Laminate offers a broader range of looks than ever before. Transform spaces with our modern laminates that are as beautiful as they are durable.

Mix and match solids, graphic patterns and finishes. Achieve the look you want for any design challenge or budget.

100% Acrylic Solid surfaces

BITTO®
Absolute quartz surfaces
100% acrylic solid surfaces

BITTO research and development group uses advanced technology on our latest new cararra colors.

It contains million of antibacteria ions inside, and these ions can kill bacteria on kitchentop and return you a healthy environment in kitchen.

SGS

100% Acrylic Solid Surface:

High flexural strength of Bitto 100% Acrylic solid surface reaches 42.6pm, over the solid surface's standard 40pm.

Ingredients of Polyester Solid Surfaces:

40% UPR (unsaturated polyester resins) + 56% ATH (aluminum hydroxide, the material of making toothpaste)+ 4% pigments & granule & auxiliary material.
