

FUNCTIONSMITH, INC.

MANILA • GUANGZHOU

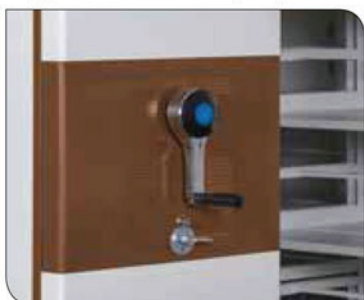

MANUAL COMPACTUS

Specification for each set:
H2300*W900*D560mm

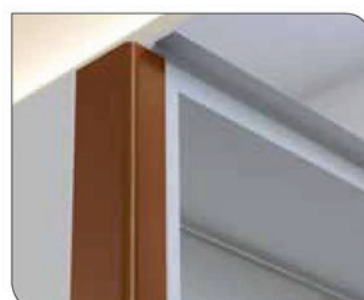

● Detailed display of dense shelves

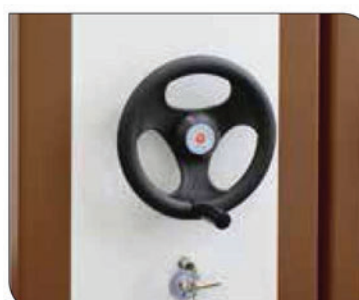

Stainless steel rocker

Adjustable layer plate

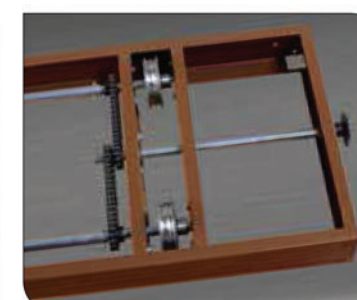

Upper dustproof barrier

Easy to Open

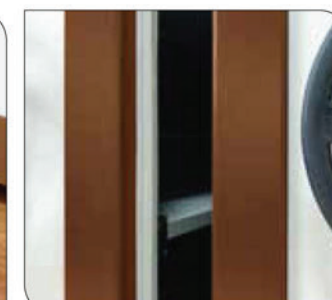

Metal lock

Bottom transmission mechanism

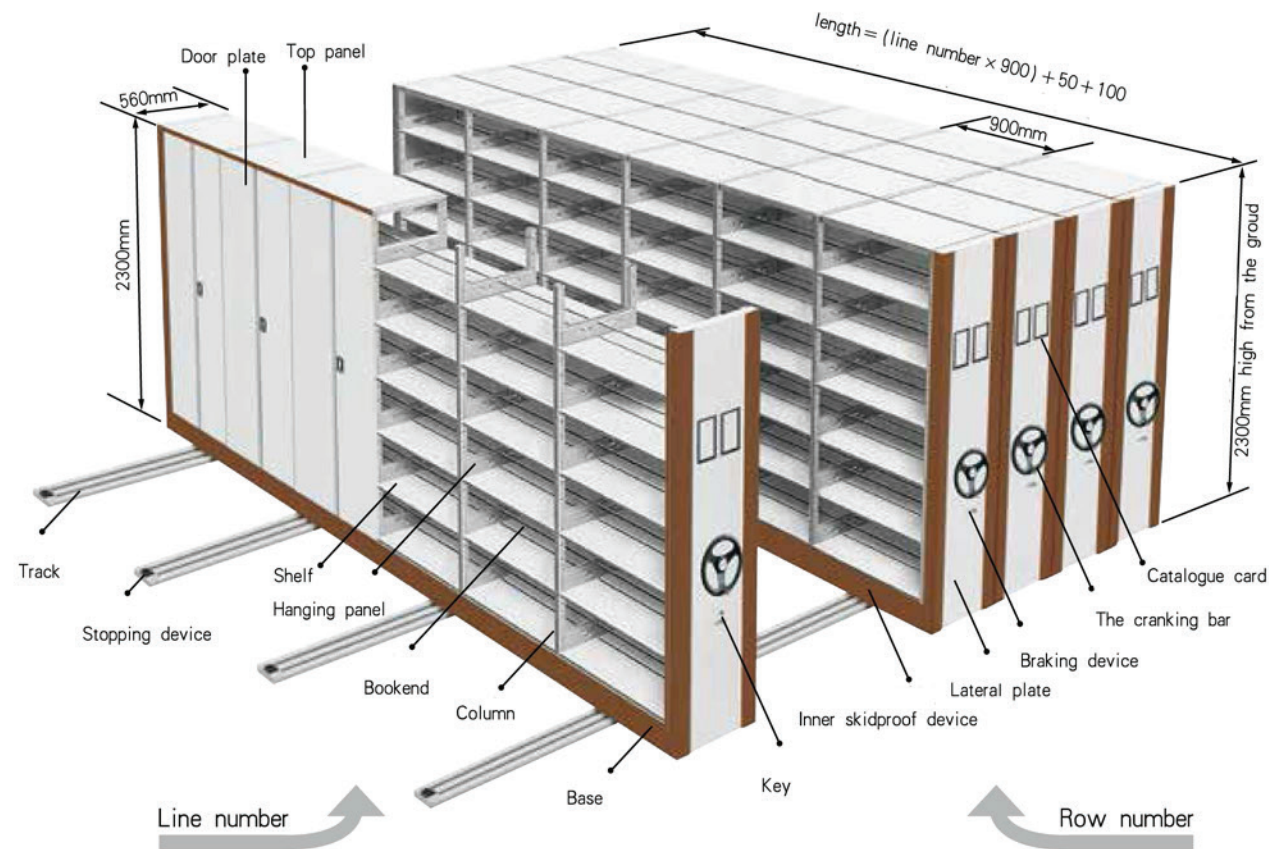

Solid square steel ground rail

Special anti-collision strips

Dense Structure Group

Actual size specifications of dense rack

1. Space occupied by buying

$[(\text{Number of columns} \times \text{column width}) + 1000] \times \text{column height} \times \text{column length (unit:mm)}$

2. Internal adjustable spacing

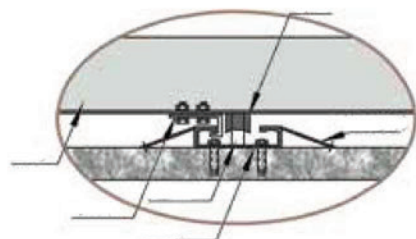

5	6	7	8	10	12
395	325	275	235	185	150

3. List as an independent unit

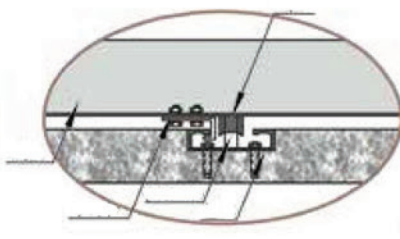

Specifications	Numbers of group				
Project	2	3	4	5	
Line Length	1955	2855	3755	4655	
Rack No.	2	2	3	3	
Line Height	2300	2300	2300	2300	
Line Width	560	560	560	560	
Bay Distance	900	900	900	900	
Self Weight	198	286	374	462	
Loading Weight	960	1440	1920	2400	

Dense track laying form

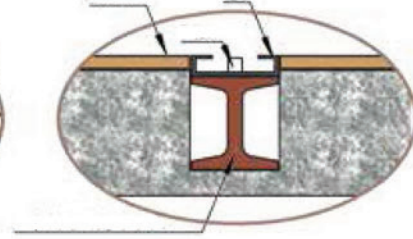

1. Anti-dumping device is set at the bottom of the dense rack to eliminate derailment and dumping during operation. The laying of the inclined wing guard surface rail is to install the track on the ground: the buried rail needs to reserve the size of the track groove, the horizontal deviation of the bottom of the groove should be less than 3mm/m, and the deviation of the full length of the track should not be greater than 10mm.
