

# Container Modular House

WWW.FUNCTIONSMITH.COM

# We provide

All Class: A fire-resistant standard container house, flat pack container house, extension container house, folding container house, custom container house, esides, we also sell sandwich wall panels, steel, doors, windows, bunk beds and other container parts and accessories.

Worker Camping House: 01 IK = 1820mm IP = 950mm Materials: Steel structure and sandwich panel Features:

Frame: Steel structure

Roof and Walls: 50mm EPS sandwich panel

Storey: Usually 1-3 floors.

Application: Temporary Office, Meeting Room, Command

post, Dormitory, Temporary Shop, Temporary School, Temporary Hospital, etc. - Reliable steel structure reliable

- able steel structure i
- Economic and environment-friendly

Installation: All the components of the house are prefabricated before leaving the factory, with the advantage of assembling and disassembling easily.

Worker Camping House: 02

- 1. Life-span of Usage:8 to 10 years
- 2. Average net self-weight: 35kg/m2 3. 3-4times of installation and disassembly
- 4. Loadability of the a building board is 180kg/m2
- Anti-wind level is grade 11.capacity:200kg-400kg/mi;

- 7. Aseismatic ability level is grade 8
- 8. Abrasion rate of each remove is 6%
- 9. fireproofing level is grade 1

**Process** 

# **Fiber Cement Board Housing**

- Reliable steel structure reliable
- Convenient installation - Economic and environment-friendly
- Density: 1.000 1.400kg/cbm
- Coefficient of thermal expansion: 0.24W/MK(JC/T54)
   Bending strength: over 13MPg (GB/T7019-1997)
- Linear expansion rate: 0.1%

# **Fiber Cement Board Housing**

Fiber cement board housing is a good system with good heat & sound insulation which is famous to used now in the world:

- -Water absorption rate: less 0.19% (GB/T7019-1997)
- -Water penetration rate: 0%
- -Water content: 10% -Incombustibility according to CNS 6532 and BS 476 standards
  -Two point five-three hours of fire rating for 6mm wall system
- with W-CSP concrete -Radioactivity: GB6566-2000 standards
- -Characteristic: nonflammability A grade (GB-8624-1997)
  -The wall is solid and firm inside, resistant to impact pressure

### Description 01:

## Steel Structure workshop

ROCK WOOL SANDWICH PANEL POLYURETHANE SANDWICH PANEL

#### Description 02:

## **Steel Structure** workshop

-The whole structure is easy in maintenance which can be used for more than 50 years -Perfect design: Perfect design completely avoids leaks and water seepage Meanwhile it's also in line with the national level of fire prevention. -Carrying capacity: Can resists the impact of strong wind and seismic performance and bears heavy snow hade

Warehouse Project: 400 m²

## **Prefab Container caming house**

#### Quick Installation, Recyclable, Durable, Beautiful Design Container house is assembled together by bolts and screws,

so it can be installed quickly. Being able to berecyclable, relocated and with a life span of more than 25 years, container is widely used as offices, meeting rooms, dorms, etc.

#### Sizes: 20', 40' or customized

Frame: Galvanized steel structure

Walt Sandwich panels are EPS/PU/ROCK WOOL/MGO, etc. Thickness: from 50mm to 100mm Roof: 50mm polystren foam panels.

Floor System And Covering: PVC covering I8mm building templates or 3mm corrugated steel sheets or customized. Ceiling: EPS color steel sandwich panel prock wookPul for the insulation Window, PVC material or administur

Door: Aluminum alloy door ,security door or compound wooden door.
