

## **Sales Person Job Description**

We are looking for a few great sales people to help expand our growing business with 100% work-from-home positions. This can be a part time or full time position.

We are a 100% remote business. Meaning, we can take on clients and sales team members throughout the United States!

The best part about this sales job is that you are paid a 10% commission on every sale, every month, for as long as that business is our client. For example: If you bring a \$400 client on board your monthly commission would be \$40 monthly for that one client. Multiply that by how many clients you bring on, and you can make as much money as you want. There are no ceilings or caps on your monthly commission.
