NATIVE PERENNIAL HOUSES
Welcome to one of the oldest nurseries in the mid-atlantic! We pride ourselves on a commitment to environmental stewardship, emphasizing organic practices & the surrounding native ecosystems. Here you can find well over 100 varieties of trees, over 200 varieties of shrubs, over 600 varieties of perennials, & an array of annuals, tropicals & houseplants from around the world. Please find a staff member if you need assistance.
Our deepest gratitude to our neighbors, the Gregg family, who have helped us offer native plant & arboretum walking trails to the community. We are proud to honor them by naming this after their family members who founded the nursery in 1925.
Thank you to Lincoln Elementary School for generously allowing our customers to utilize their parking lots during weekend hours. Please use caution when crossing the street.
