

HOT BALL – VALIDATION GAME

Cost of validation - \$1.00

Before the start of bingo on the blue 12-up books, a ball will be pulled from the machine. This ball will be known as the “Hot Ball”.

All monies collected for validation will be held separate from any other money collected for bingo play.

The “Hot Ball” will begin at the start of play on the regular 12-up books.

If there is no winner, the amount will continue to grow each week as players have their cards validated at the cost of \$1.00. Once the pot reaches \$1,000, another pot will be started and there will be 2 hot balls drawn and it will continue at \$1,000 intervals.

The “Hot Ball” cannot be won on the Winner Take All, the 50/50 game, speedballs, pull tabs, games with wild numbers, the 3 jackpot sets or any other special game played.
