Glorybound Lasertrain

The woman behind it.

Sheri Hauser redefines digital publishing with the release of Glorybound Books Publishing Company in Las Vegas in 2008 three years after the inception of the limited liability company charter in January 2005. Glorybound Books Ltd is proud to release, all at once for review 50 books, 15 Lasertrain Digital publishing for Business books, 180 print and pattern sets, five calendars displaying fine art by the Glorybound Artists and 26 signed and numbered fine art prints by two artists. The Children's department, GBK is releasing 7 books accompanied with educational learning programs, plays, music, and activities which promote interactive elements

designed to promote moral development in children. The company programs include the Artist Bank {providing training and support for Artists}, Educational School Programs {English and Art Honour Books}, Especially for Teachers {Plays and interactive activities for classrooms}, Glorybound Lasertrain {Helping business help themselves}, Glorybound Christian Authors of Nevada, Publication options for Business {Publication Packages for Business} and United in Word {Translation of books}

All of the books are digitally published using the latest software and printing techniques with integration of Photoshop, CS2 In Design, Illustrator, Avery, Acrobat and Go Live. By building the company from the ground up using digital software technology we have the capability to enlarge, shrink and change the books printing on demand maximizing the printing capabilities of the printer and computer software integration to speed publication and formatting.

GLORYBOUND LASERTRAIN
