FOR IMMEDIATE RELEASE

The Board of Directors wish to express their sadness upon learning of the passing of His Holiness, Pope Francis.

The Pope's vision and mission to make a difference in the world through respecting others and providing comfort and need - wherever and however it existed - were regarded as both progressive and unique to his position as Pope.

As the first member of the Jesuit Order to become Pope, Pope Francis' views on the significance of living a life reflecting social justice, his strong opinions of always helping those in need, and his lifelong commitment to humility and grace, were of paramount importance throughout the twelve years he served as the Head of the Catholic Church.

Pope Francis was often criticized for his views on equality and respect for others. He dismissed his critics, saying he cared less about how he was characterized by them and cared most about living a life that was consistent with his vows to love one another, help and support one another, and to do all in one's power to make the world a better place.

The world lost a powerful social justice advocate today in the passing of Pope Francis. He will be missed.
