ELECTRONIC GIVING OPTIONS

Kimball provides a number of different options for our congregation to electronically present their offerings to the church.

Bill Pay – Most banks today offer a bill payment service with re-occurring feature. Individuals can set up their offering as a bill, and a check will be issued from that account and mailed to Kimball. The frequency of the check issuance and the amount of the check is determined by the individual and is easily changed.

Tithe.ly (thru kimballchurch.org) – By going to our church website, individuals can present offerings thru an electronic service provided by Tithe.ly. The offerings can be set up as a one-time event or as re-occurring. There is a charge for this service and the individual has the option of paying the charge, or the amount will be deducted from the offering when sent to Kimball. Electronic offerings set up by our previous provider, Vanco, will remain in place and the change to Tithe.ly will have no impact on these items. If you would like any more information about any of these options, or assistance in getting one of the options set up how to get them set up, please contact any member of the finance team, or the church office.
