

## San Luis Valley Area 4-H Breeding Livestock Project Supplement Page

(Breeding page only needs to be done if you are enrolled in a breeding project.) Complete for only the animals you are entering into the breeding project. There is no need to add your entire herd/flock. Duplicate this page if you need to. Do not leave any spaces blank. If they do not apply to your project, mark the box with an N/A. Reach out to the Extension Office for any questions.

Species	Dam Name / ID	Sire Name / ID	Date Bred	Date Born	Number Born	Genders Born (F = female, M = male)	Birth Weight (lbs, oz)	Weaning Weight (lbs, oz)

**Project Comments (be specific about what dam / sire / offspring you are talking about). Indicate if there were any birthing problems and/or any other comments about the animals in this project. If you have any specific goals for this project, please include them in the Project Goals section in the Livestock Record Book.**
