DYNAMIC
PRODUCT SOLUTIONS

Specialists In:
- Custom Air Handling
- Precision Cooling
- Humidification
- Dehumidification
- Critical Airflow Control
- Fans/Blowers/Vacuums
- Energy Recovery
- Packaged Rooftop Units

Buffalo Line Card

MK PLASTICS CORPORATION

MK Plastics offers the broadest and most complete line of industrial and commercial corrosion-resistant blowers andfans. MK specializes in high-plume dilution fans, fiberglass fans, and acid exhaust systems.

BUFFALO AIR HANDLING

Fully Custom Air Handlers Designed for any project you may have. Factory Built and Site Built Solutions. Superior Engineering, Fabrication, Installation and Service.

AboveAir TECHNOLOGIES

AboveAir manufacturers mission critical computer room air conditioning units. Precision cooling units with capacities ranging from 1–30 tons available in floor, ceiling or wall style units.

NuClimate

NuClimate offers Induction and Chilled Beams with IAQ drain pans, multiple configurations are available. Our Valance units are of aluminum construction with fan assist and drain pan options.

ACCUTROL LLC

Airflow Control Technologies for Critical Environments. Customizable Airflow Technologies include award winning, low pressure-drop AccuValve® airflow control valve.

CAREL

Carel offers a full line of humidification solutions with superior yet simple controls. Gas Fired and Electric Steam generators, Ultra-Sonic and Atomizing Humidifiers, and live steam injection.

hpt

Heat Pipe Technology, Inc. is the leader in dehumidification and heat recovery where cross-contamination may be a concern.

INNOVATIVE AIR TECHNOLOGIES

Desiccant Dehumidifiers for low dew-point humidity control. Systems from 75 to 30,000 CFM. Rotors available in 100mm, 200mm, and 400mm depths.

THERMOTECH ENTERPRISES

Most Reliable Energy Recovery Wheel Available. Thermowheel® Designed for New AHU Applications and Retrofit Applications. Minimum Design Life of 25 years and backed with Standard 10 Year Parts and Labor Warranty.

AEROFIN Heat Transfer Products

Aerofin manufactures heating, cooling and heat recovery coils, as well as fluid coolers and remote air-cooled condensers. Specializing in high-quality, industrial duty coils.

Cincinnati Fans specialize in cast aluminum and fabricated steel, aluminum and stainless steel industrial fans between 1/4 and 125 horsepower. Cincinnati Fan also manufactures customized models that are designed to meet your exact requirements.

Environmentally controlled sterile equipment storage cabinets with integral temperature/humidity and HEPA filtration capabilities to prevent contamination of autoclaved instruments.

BluChill manufactures quality rugged Process Chillers. Their standard offerings include 1 to 60HP sizes with available ultra-low-ambient to -50F. When a standard model doesn't quite fit, they'll build a custom unit to your exact requirements.

Aerovent manufactures a wide range of fans for the industrial, commercial and marine markets. Aerovent has been in business since 1932 and continues to be a leader in the design and fabrication of air moving products.
