Dynamic Product Solutions LLC  
135 Sully's Trail, Suite 6  
Pittsford, NY 14534  
P: 585.310.7360

- Specialists In:
- Custom Air Handling
  - Precision Cooling
  - Humidification
  - Dehumidification
  - Critical Airflow Control
  - Fans/Blowers/Vacuums
  - Energy Recovery
  - Packaged Rooftop Units

Heat Pipe Technology, Inc. is the leader in dehumidification and heat recovery where cross-contamination may be a concern.

## BUFFALO AIR HANDLING

Fully Custom Air Handlers Designed for any project you may have. Factory Built and Site Built Solutions. Superior Engineering, Fabrication, Installation and Service.

AboveAir manufacturers mission critical computer room air conditioning units. Precision cooling units with capacities ranging from 1–30 tons available in floor, ceiling or wall style units.

NuClimate offers Induction and Chilled Beams with IAQ drain pans, multiple configurations are available. Our Valance units are of aluminum construction with fan assist and drain pan options.

Airflow Control Technologies for Critical Environments. Customizable Airflow Technologies include award winning, low pressure-drop AccuValve® airflow control valve.

Carel offers a full line of humidification solutions with superior yet simple controls. Gas Fired and Electric Steam generators, Ultra-Sonic and Atomizing Humidifiers, and live steam injection.

MK Plastics offers the broadest and most complete line of industrial and commercial corrosion resistant blowers and fans. MK specializes in high-plume dilution fans, fiberglass fans, and acid exhaust systems.

Direct and indirect fired gas heaters and air handlers, focusing on total air management. Steam and Hot water solutions are also available. AbsolutAire focuses on three markets: Direct Fired Make Up Air, Direct Fired Heating and Ventilation, and Indirect Fired Heating and Ventilation.

Most Reliable Energy Recovery Wheel Available. Thermowheel® Designed for New AHU Applications and Retrofit Applications. Minimum Design Life of 25 years and backed with Standard 10 Year Parts and Labor Warranty.

Aerofin manufactures heating, cooling and heat recovery coils, as well as fluid coolers and remote air-cooled condensers. Specializing in high-quality, industrial duty coils.

Spencer blowers range in size from fractional horsepower Vortex® regenerative blowers to 2000 HP multistage centrifugal blowers. Spencer also designs and builds industrially rated vacuum systems for heavy-duty cleaning jobs in commercial, institutional and manufacturing locations.

Cincinnati Fans specialize in cast aluminum and fabricated steel, aluminum and stainless steel industrial fans between 1/4 and 125 horsepower. Cincinnati Fan also manufactures customized models that are designed to meet your exact requirements.

BluChill manufactures quality rugged Process Chillers. Their standard offerings include 1 to 60HP sizes with available ultra-low-ambient to -50F. When a standard model doesn't quite fit, they'll build a custom unit to your exact requirements.

Environmentally controlled sterile equipment storage cabinets with integral temperature/humidity and HEPA filtration capabilities to prevent contamination of autoclaved instruments.

Aerovent manufactures a wide range of fans for the industrial, commercial and marine markets. Aerovent has been in business since 1932 and continues to be a leader in the design and fabrication of air moving products.

Desiccant Dehumidifiers for low dew-point humidity control. Systems from 75 to 30,000 CFM. Rotors available in 100mm, 200mm, and 400mm depths.

Applied Environmental Air is a leading manufacturer of quality water sourced heat pumps, fan coils and air-handlers; in capacities from ¾ to 20 Tons. American Made High Quality Manufacturing: With over 600,000 square feet, and growing, of production facilities located in Dallas, Texas, AE-Air is one of the largest fan coil manufacturers in the US with both the most up-to-date manufacturing equipment available and a stable, experienced, highly skilled workforce.
