## AIR CONDITIONING ENERGY SAVINGS & PEAK DEMAND REDUCTION

# CTECK

## COMPRESSOR ENERGY REDUCTION SOLUTION

The problem we are addressing is, air conditioning is one of the biggest strains on our public energy grids, carbon emissions and the cost to run them.

CTECK eases the problem.

CTECK is a retrofit module mounted into the outdoor unit of your air conditioning systems and adds intelligence to reduce energy and maintain comfort levels.

Your Air conditioning system is able to perform to its most efficient capabilities beyond the Normal parameters of mass-produced air conditioning units.

CTECK takes your smart system to the next level of intelligence for your location, usage, environment. . . . . (AI technology continually tunes you're A/C to perform the way you need it.)

---

Partnering with CTECK can reduce the running cost of air conditioning systems by up to 25%, which will also proportionally reduce the total energy bill

- ✓ **Reduce operating cost and increase profitability**
- ✓ **No change to process & operation**
- ✓ **Simple installation by licensed electrician**
- ✓ **Ducted, Cassette and High Wall systems**
- ✓ **Minimal effect on indoor temperatures**

**CTECK WAS DEVELOPED  
IN QUEENSLAND AND IS  
MANUFACTURED AND  
DISTRIBUTED IN QUEENSLAND**

**ENERGY  
SAVINGS  
UP TO 25%**
