13. Anyone waiting to be a new member must be sponsored by a current member. Once asked they must present themselves to the Board at a Board meeting. The Board will then consider the membership and vote on it. The candidate will be informed of the decision.

18 YEAR OLD MEMBERS GOING TO COLLEGE

Young people, 18 years of age and out of high school that are coming out of a family membership will automatically be considered as hunting members. They will have to buy a single membership to remain as members in the club even if they are attending college. They will not have to sell the raffle tickets or work the hours if they are not hunting for that year. They will be able to return as hunting members as long as their membership is current. If the member desires to hunt they must put in their work hours, sell the raffle tickets and purchase the pheasant tag like any other member is required to do.

NEW MEMBERSHIPS

We are not accepting new memberships for hunting at the present time. (new memberships for people wanting to join the club will be placed on a waiting list until there are available spots for hunting) All present members, who remain members, will be permitted to hunt even if they have not hunted prior to this.

Any children of family memberships can hunt when they turn 18 as long as they maintain individual membership in full. (Including the fund raisers, dues, work hours, pheasant tag) Membership dues must be paid before full membership begins.

We will try to keep our hunting member numbers between 65 and 75 if safe to do so. As hunting members drop out or current members choose not to hunt, the Board will decide to take on new members from the waiting list.
