

THE PEACE OF MIND YOU DESERVE

With the current global crisis, businesses are demanding scalable solutions that other sanitizing systems fail to deliver. Our SANIFOG system is the answer for scalability, cost efficiency, and effectiveness, keeping your business and it's occupants healthy and safe.

EPA APPROVED

- ✓ SANIFOG US with Cloudburst Technology™/© uses only EPA approved or N-List registered disinfectant liquids that meet the criteria for its Emerging Pathogens Policy (EPP) for use against the COVID-19 virus and its variants.
- ✓ Our approved formulas are full spectrum tested, proven to kill 99.99% or better of other common bacteria, viruses, and pathogens.
- ✓ SANIFOG US approved formulas are effective, but also natural and environmentally friendly.

DID YOU KNOW?

Studies show that viruses are transmitted primarily through the air, even more than from contact surfaces.*

SANIFOG is the only dry-fog disinfectant system that has the capability to sanitize the air and all exposed contact surfaces. An entire room can be sanitized in seconds, working days after the application!

SANIFOG is the fastest, most effective, cost-saving solution for large indoor and outdoor spaces. An 80,000 Square foot application can be disinfected and ready for use in minutes!

SANIFOG'S UNIQUE CLOUDBURST TECHNOLOGY™

In a single application SANIFOG's unique cloudburst technology covers:

- ✓ Floors, walls, ceilings
- ✓ Crawl spaces
- ✓ All contact areas
- ✓ Air ducts
- ✓ Adjoining rooms
- ✓ HVAC filters

THE BENEFITS OF SANIFOG

Our Unique Cloudburst Technology™ eliminates the possibilities of human error and damage associated with other disinfectant services.

- | | | |
|-----------------------|-------------------------------|--------------------------------------|
| No missed spots | No tacky surface residue | No wet application to wipe |
| No follow-up cleaning | More efficient than UV lights | Sanitizes an entire space in seconds |

USED IN A VARIETY OF APPLICATIONS

- | | | |
|------------------------------------|---------------------------------------|------------------------------|
| ✓ Restaurants | ✓ Warehouses and Distribution Centers | ✓ Offices and Meeting Spaces |
| ✓ Hotels | ✓ Places of Worship | ✓ Gyms |
| ✓ Hospitals and Nursing Facilities | ✓ Small Businesses to Big Box Stores | ✓ Libraries and Museums |
| ✓ Stadiums and Arenas | ✓ Event Centers | ✓ Public Transit |
| ✓ Airports and Planes | ✓ Schools and Universities | ✓ Automotive |

FORMULATED TO BE SAFE

Our Unique SANIFOG Dry-Fog System™ has been specially formulated to meet the demands of businesses and is safe for:

- | | | |
|-----------------------------------|------------------------------|----------------------|
| ✓ All electronics | ✓ Clothing and footwear | ✓ Use around plants |
| ✓ Kitchens and food prep surfaces | ✓ Valuable artwork | ✓ Delicate Items |
| ✓ All materials and fabrics | ✓ Use on important documents | ✓ Use around animals |

EASY AND CONVENIENT

Our SANIFOG system is simple to use and has only a few requirements.

- ✓ Our multi-patented, programmable, and portable SANIFOG machine.
- ✓ Our approved full-spectrum tested formulas, proven to kill 99.99% or better of other common bacteria, viruses, and pathogens.
- ✓ A trained operator.
- ✓ The ability to push a button.
