Pozidriv® Insert Bits

These industrial quality tool steel insert bits feature a Pozidriv® design, with ribs set 45° from the main cross, to provide a more secure grip between bits and fasteners, helping reduce cam-out.

Torq-Set® Insert Bits

Torq-set is a cruciform screw drive used in torque sensitive applications. The Torq-set head is similar in appearance to a Phillips drive in that it has a cross with 4 arms; however, the lines are offset from each other, so they do not align to form intersecting slots across the top of the head, nor will a regular Phillips or flat-blade screwdriver fit the head.

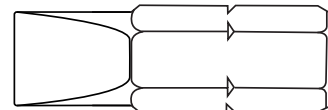

Item	Description	STD Pack	UPC Code	Length	Turn Type	Height	Weight (Lbs)	COO	Pkg. Type
B17216	Torq-Set® No. 6 x 1"	50	080497172169	1.00	-	0.25	0.01	TW	Bulk

MAYHEW™ BESTWAY®

Since 1856

TOOLS

Mayhew Steel Products (Mayhew Tools), founded in 1856, is an ISO 9001-certified company and the oldest punch and chisel manufacturer in the United States. Headquartered in Turners Falls, MA, the company's transition from a small tool house to industry leader comes as a direct result of their dedication, reliability, and craftsmanship in manufacturing high-quality hand tools. In 2019 Mayhew acquired Bestway Tools, a Florida-based premium manufacturer known for their screwdriver and bits product lines, significantly expanding the company's product offerings. Mayhew Bestway tools are industrial-grade products designed for a wide variety of applications and sold globally through an extensive distributor network. For more information visit mayhew.com.

Mayhew Bestway:
Limited Warranty - Product guaranteed to be free of defects on purchase.
