

Newland N910

Smart Payment Terminal & POS

More Ways to Pay

The N910 seamlessly addresses multiple use cases on a single platform. Serving a simple payment experience for any business.

Unlimited possibilities

Choose from a vast catalog of apps that allow you to run your business more efficiently. No matter what industry you're in, you'll find something to suit your needs.

A payment terminal that is robust, reliable, and simply works.

Employee Management

Track and manage employee shifts and control employee permissions from the same compact payment device.

Real-Time Reporting

Get detailed sales reports and analytics in real time, settle batch data, and view disputes from any computer or smart device.

Customer Retention

With a built-in CRM tool, you can stay connected to your customers. Store their emails, receipts, and purchase history, and incent them with special offers.

Wireless Freedom

Comes with Wi-Fi and LTE capabilities and up to 8 hours of consistent use, so you can accept payments from anywhere.

Receipt Flexibility

Customize your receipts with your company's logo and brand. Your customers can choose to print, email, or text their receipts.
