Poynt C Smart Terminal

The reliability of a terminal with the versatility of a smartphone.

Engage your customers.

Store purchase history and engage customers with satisfaction surveys via email or on the customer-facing screen. Respond to their feedback in real-time via the Poynt HQ portal.

Scale your business.

Manage multiple Poynt Smart Terminals across different business locations, and keep all your products organized with Poynt's built-in product catalogue.

Poynt C Smart Terminal is a fast, wireless POS device.

Versatile Apps

Choose from a variety of apps available on your Poynt C terminal to help with everything from accounting to employee management.

Reporting and Analytics

Track sales, settle payments/ refunds, get insights and alerts, and review business analytics in realtime with the Poynt HQ portal.

Receipt Flexibility

Customers can choose from print, email, or text receipts. Your Poynt C terminal will automatically store their order for future transactions.

Fully Customizable

Upload your logo or company design to the customer-facing screen and add your branding to receipts.

More Ways to Pay

Easily split payments between customers or multiple payments types. Track cash payments on your Poynt terminal to get a consolidated view of your sales.

Powerful Security

Keep customer's data safe with encryption and tokenization. With Poynt terminals, you get the latest security technology to protect your business and your customers.
