

Newland N950 Smart Terminal

Ensure you stay competitive with customer payment demands using the Newland Smart Terminal Flex. Our premier point-of-sale software, Newland is a sleek and efficient payment companion that helps handle daily operations and boost sales.

Easy Integration. Our robust payment processing software provides dozens of added features, analytics and more.

Keep Going. High-powered lithium battery for longer charge. Pair with optional docking station for more connection ports.

Wireless Freedom. Looks great on the counter or on-the-go. Full WiFi, 4G and Bluetooth transaction support.

Reliable Security. Rest easy with fully protected and PCI-compliant payment data and customer information.

All-in-one- terminal. The Smart Terminal Flex is Wi-Fi and cellular 4G enabled, with a touchscreen, built-in printer, barcode scanner and long-life battery life — so you can take it where you need it.

Payment Flexibility. Accept swipe and chip cards, contactless, and QR — at the counter, at the table, or anywhere you need to go!

On Display. Crisp 5.99" LCD touchscreen, embedded camera and adjustable backlight make navigation a breeze.

Use the optional hub to connect to compatible peripherals.
