Put your branded copay program right into Costco pharmacies and millions of their members' hands

Costco is piloting prescription drugs savings alerts to their pharmacy staff and the next generation Rx savings app that automates savings for branded medications to millions of Costco members.

Costco invites your brand to participate.

Powered by CuverdTM, POS alerts and the app will provide better price transparency and awareness to eligible copay savings, along with streamlined enrollment into your brand's programs to **help Costco members start and stay on your therapy longer.**

Automated POS alerts to pharmacist and display of the current available savings program information to engage member

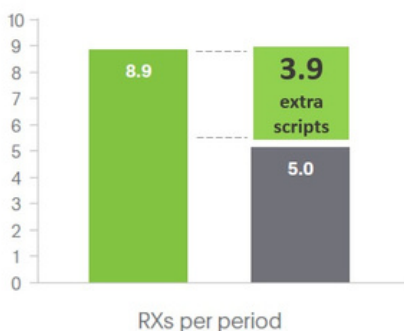

Pharmacy staff consults member 5 days prior to refill or at counter to enroll via Costco-Cuverd app/site

Ramp **UP** more enrollments into your proven successful copay programs to get **more starts and patient refills!**

Copay coupon patients fill more prescriptions vs. non-copay coupon patients.³

Average RXs during study period

■ Copay coupon patients ■ Non-copay coupon patients

n (ConnectiveRx coupon patients) = 247,010
n (non-coupon patients) = 1,087,353
