

ABOUT US

ZalaSmart is a company who aims to teach kids and teens essential life skills starting with financial literacy.

How we operate:

This is done through fun and interactive Financial Literacy camps that children can enrol in the same way they enrol in sports and extracurricular programs.

Results we strive for:

Longterm, we hope to reduce the high number of young adults between the ages of 18 to 25 with lots of credit card debt and low amounts of savings.

Money Smart Kids & Teens

Don't you wish you were taught the value of money, how it works and how to better manage it during your core development stages as a kid? How much more financially savvy would you be today?

At ZalaSmart, we strongly believe each child deserves the opportunity to learn how to manage the one thing in life they will be in constant interaction with "Money".

Start Young

Give your kids a head start in understanding saving, saving goals, budget, credit cards, debit cards and much much more!
