

PRESS RELEASE

VEGA INFORMATICS AND NAGELS CONSULTING ANNOUNCE NEW PARTNERSHIP

ONTARIO, CA, USA AND TORONTO, CA, CANADA - July 10, 2023:

Vega Imaging Informatics and **Nagels Consulting** have announced a groundbreaking partnership that will revolutionize the landscape of imaging informatics education in the healthcare industry. By combining Nagels Consulting's healthcare education expertise with Vega Imaging Informatics' exceptional data and imaging informatics experience, they are poised to deliver unique educational opportunities for healthcare providers, medical imaging vendors, and AI developers.

Vega Imaging Informatics is a leading US-based imaging informatics consulting firm and provider of de-identified medical imaging data. The company's imaging informatics expertise and high-quality data services have consistently impressed the industry. Since 2018, Vega Imaging Informatics has provided imaging informatics services for some of the world's leading imaging providers and AI vendors.

Nagels Consulting is a respected leader in the field of healthcare education. The company offers comprehensive training programs and educational consulting services to healthcare professionals worldwide. Nagels Consulting's deep understanding of the complex educational needs within the healthcare sector makes it a perfect fit for this collaboration.

This strategic partnership will leverage Nagels Consulting's educational expertise in the healthcare field. It aims to enhance Vega Imaging Informatics' service catalog. The focus will be on providing valuable educational training. This will equip vendors and providers with the skills necessary for success in today's data-driven medical imaging environment.

PRESS RELEASE

“We are thrilled to join forces with Nagels Consulting,” said Luke Bideaux, President and CEO of Vega Imaging Informatics. “This partnership signifies a significant step forward in our commitment to empowering healthcare organizations with the knowledge they require to be successful in the current imaging landscape. By combining our expertise in medical imaging data management with Nagels Consulting’s healthcare educational experience we aim to provide valuable training in an area where educational opportunities are limited.”

Jason Nagels, Principal of Nagels Consulting, echoed Bideaux’s sentiments, emphasizing the potential impact of this collaboration. “Our educational expertise combined with Vega Imaging Informatics’ experience in AI and data services opens up immense possibilities for healthcare professionals to enhance their skills and seamlessly adapt to the future of medical imaging,” said Nagels. “We are excited about this partnership.”

The partnership will offer a range of benefits to healthcare organizations. Through joint efforts, Vega Imaging Informatics and Nagels Consulting will develop tailored training programs, workshops, and educational resources in such areas as AI Interoperability, Medical Imaging Standards, Post Processing Techniques, and Imaging Workflow Optimization. By addressing the educational gaps that exist for many imaging professionals, learners will gain the necessary tools and knowledge to be successful in their specific imaging domain.

The healthcare industry is witnessing an era of rapid digital transformation, and effective data strategies have become crucial for organizations to survive. Vega Imaging Informatics and Nagels Consulting’s partnership will allow healthcare organizations to take advantage of their exciting new educational offerings and embark on a new era of enhanced data management, improved patient care, and increased operational efficiency.
