WEB MASTER:

Joan Thorne at TLC Website Designs

Welcome to our 28th Charolais Bull Sale

The bulls have been developed on fescue for a sound and long life. Featured this Spring we have 16 sons and grandsons of the famous LT Ledger. His breeding has been well received by commercial and purebred breeders alike. Ace-Orr Lock & Load and Ace-Orr Predator both are Ledger sons that we sold in 2014. They were the number 1 and number 2 TSI bulls for the entire Charolais breed in 2018. Also, we have 15 sons by Ace-Orr Steel and Ace Doc Easy, both are calving ease specialists.

More pounds and buyers wanting to pay-up for your calves is a huge part of the picture. Equally as important is no problem Hybrid Vigor. Planned genetics are the main focus of our breeding programs. Utilizing heterosis is not fake news. Poultry, swine and grains are light years ahead of the cattle industry when it comes to genetics. My question to you is, "Why not have it all?"

We hope to see you ring side sale day. However, for those who cannot attend, we will be live on the internet. ** New ** for the Spring sale, Cowbuyer.com will broadcast our sale. Plus, we will be happy to take your bid over the phone.

Photos of key reference sires are scattered throughout the sale book. The weekend prior to the sale, videos of requested bulls will be posted to our website. When you find a bull you would like to have videoed please call. Once again, the sale will be broadcast live.

If there is anything we can do to help with your next big investment in making both your cows and your banker happy let us know.

Larry and Peggy

**LIVE INTERNET VIEWING AND BIDDING AT
www.cowbuyer.com**

FEMALE SALE

- 20 Spring calving Char X Angus cows, four to seven years old, bred to Charolais bulls.
- 5 Fall Red Angus Heifers bred to Akaushi bulls

CUSTOMER SERVICE

We believe that our after the sale warranty is one of the best in the industry. You have a problem, any problem with our bulls, we are there for you. We are not happy until you are happy.

Bulls we offer at our sale are “The Cream Of the Crop”. This is not a sale where the top bulls have been sold off and you get the left overs. We have a long and proven track record of satisfied customers. We have taken the gamble out of herd sire selection.

It's important to us that we sell bulls in everyone's price range. As you are aware herd bulls represent at least half of the genetic input of the calves you sell later. That percentage goes up if you decide to save replacement females. Stated in current market reports there can be a \$.30 per pound spread in the #1's vs. #2's and #3's of the same weight. No matter what the market is, you always get paid more for high quality calves. Now more than ever is the time to buy the best bull you can.

MANDATORY IDENTIFICATION

Once again, some of the beef industries talking heads are saying we need every bovine identified at the farm of origin for disease tracibility. This discussion is not new and has been studied for years. Voluntary programs are being implemented in some areas today. If and when mandatory I.D. happens, I forcast further changes, to our industry, will follow.

In time all genetics will be evaluated by the feedlots, packers and consumers. Bulls you buy now are the base for your future.

With mandatory identification, other entities may have access to your personal inventory.

COLOR IN CATTLE

If you want all your calves color marked for a premium price use our white bulls. About all of the other European breeds have diluted their genetics to make their red cattle into black. Even Herefords have a black option. The Charolais Associations long standing position has been not to register black haired cattle.

As a group we are very proud of our Yellow and Smokey colored feeder calves.

Color counts when your cattle sell at the auction. Order buyers have only seconds to determined the genetic potential, weight, body condition, fill and finally the price. Certified Angus beef is a meat marking program that has created a demand for black cattle. However, some issues still remain, not all black cattle are Angus and not all black cattle receive the CAB premiums.

The recent Beef Quality Assurance said while a lot of progress has been made in quality grade. External fat and inadequate muscling still remains as an industry problem. They called it "Lost Opportunities." All agree that continued progress can be made. We offer a tool to get you there.

Charolais advantage's are several. As long as your calves are sold by the pound, feed lots want efficient gains and packers do not want external fat, Charolais will remain in demand.

If you have any questions about how our genetics can work for you please call. I would really like to discuss how our Ace Bulls can be your next step to increasing your profit.

PreFix on Reg. Number Tells a Story

M - MALE

*EM - EMBRYO MALE

Q - RED FACTOR CHAR

RM - 75% OR MORE CHAR

MP - 50% CHAR

* Embryos are not raised by their biological Mothers, therefore the adjusted weaning weight may not be very accurate.

25 BRED FEMALES SELL!

Offering 20 Spring Calving Cows

- Charolais X Angus
- Four to Seven Years Old
- Bred to Charolais Bulls

Offering 5 Bred Heifers

- Red Angus
- Bred to Akaushi Bulls

Reference Sire: MCC 4032

HYBRID BULLS

AT THIS TIME, THE DATABASE IS SMALL AND THE EPD'S DON'T MEAN MUCH TO ME

- MATURE WEIGHT 1575 LBS
- VERY SOUND FEET AND LEGS
- GREAT DISPOSITION
- TOP 15% FOR MARBELING EPD
- EXCELLENT VIGOR AT BIRTH
- BIRTH WEIGHT FOLLOWS THE SIZE OF THE COW MATED WITH
- GROWTH RATE IS LIKE AN AVERAGE ANGUS

WE WILL SELL CHOICE OF THESE HYBRID BULLS THAT ARE Sired BY MCC 4032

AKAUSHI/WAGYU

Most American cattlemen have had limited exposure to cattle from Japan. The black ones have been around about 40 years. Their limited growth and frail appearance did not fit our program. A few years ago we found the RED AKAUSHI breed and they appeared to have some potential. 1992 was the last importation of three fullblood bulls, Shigemaru, Hikari and Tamamaru. Plus some fullblood females were also imported. They were multiplied in a closed herd by HeartBrand Ranch in Texas.

In 2013, we quietly started our experiment with these Japanese Cattle. In general they have far exceeded our expectations. We have calved first calf heifers out of fullblood and half blood AKAUSHI bulls with excellent results. They have acceptable growth and their eye appeal has been a pleasant surprise. The long term goal for the AKAUSHI is to produce prime grading carcass for premium meat marketing programs. In one cross you can hit more than 40 percent prime grading carcasses.

Based on the previous five year average, prime as a \$200 a head or more premium over high choice. Today the industry produces about 6 percent prime grading beef. Currently high end restaurants cannot find enough prime meat. Another niche market may be for your own grass fed beef program.

Who knows what will happen in the future. Based on consumer demand the industry keeps changing, that being said, right now on the local level we believe our AKAUSHI will produce feeder cattle that will sell as good as any.
