LIVE STREAM VIDEO AUCTION:

Enjoy the live stream video auction on Cowbuyer.com
View/bid on Cowbuyer.com
Real high speed internet service preferred.

BREEDING GUARANTEE:

These virgin bulls are semen tested and scrotal measurements taken. Plus the bulls will be BVD and Trichomoniosis tested. Simply put, your cows complete satisfaction and herd health is our goal.

EPD'S:

The breed average for Non Parent EPD distribution is: CE 5.3
BW 0.3 WW 30.3 YW 55.7 MILK 9.5 TOTAL MATL 24.7 SC 0.9
MCE 5.3 HCW 19.7 REA 0.69 FAT 0.008 MARB 0.10 TSI 202.10
Additional EPD's for sale bulls can be provided.

FOOD:

Sale day, 1st thing coffee and donuts. Then lunch will be served.

MOTEL:

The host motel will be at the: Super 8 Motel in Carthage, MO
417-359-9000. If you need assistance with a room, just let us know.

LIABILITY:

We are not responsible for any injury or accidents.

SALE CATALOG DESIGN:

Jocelyn Washam, Rural Route Creations

WEB MASTER:

Joan Thorne, TLC Website Designs

Welcome to our 30th Charolais Bull Sale

The majority of our bulls rank above the breed average (202.10) for the TSI index. See page 2 for a full explanation. In simple terms, it is an index that combines several EPD's. Depending on your selection we have all the performance that you need.

Maybe just as important, our bulls are developed in hot fescue pastures for a sound and productive life. Our 18-month-old bulls will not fall apart when turned out.

More pounds and buyers wanting to pay-up for your calves is a huge part of the picture. Equally as important is no problem Hybrid Vigor. Planned genetics are the main focus of our breeding programs. Utilizing heterosis is not fake news. Poultry, swine and grains are light years ahead of the cattle industry when it comes to genetics. My question to you is, "Why not have it all."

We hope to see you ring side sale day. However, for those who cannot attend, we will be live on the internet. Just like our last three sales... www.cowbuyer.com will broadcast our sale. Plus, we will be happy to take your bid over the phone.

Photos of key reference sires are scattered throughout the sale book. The weekend prior to the sale, videos of requested bulls will be posted on our web site www.aschermanncharolais.com When you find a bull you would like to have videoed, please call. Once again, the sale will be broadcast live.

Larry & Peggy

CUSTOMER SERVICE

We believe that our after the sale warranty is one of the best in the industry. You have a problem, any problem with our bulls, we are there for you. We are not happy until you are happy.

Bulls we offer at our sale are “The Cream Of the Crop”. This is not a sale where the top bulls have been sold off and you get the left overs. We have a long and proven track record of satisfied customers. We have taken the gamble out of herd sire selection.

It's important to us that we sell bulls in everyone's price range. As you are aware herd bulls represent at least half of the genetic input of the calves you sell later. That percentage goes up if you decide to save replacement females. Stated in current market reports there can be a \$.30 per pound spread in the #1's vs. #2's and #3's of the same weight. No matter what the market is, you always get paid more for high quality calves. Now more than ever is the time to buy the best bull you can.

TERMINAL SIRE INDEX

With the release of 2015 Fall EPDs, a new data point has been added - AICA Terminal Sire Index (TSI). The AICA Terminal Sire Index (TSI) is a formal method of combining Expected Progeny Differences (EPD) - BWT, WWT, YWT, MAT, REA, HCW, MARB and FAT - into one single value on which to base selection decisions. The TSI uses estimates of the genetic relationships between traits with an economic default value based on three year rolling USDA data.

The TSI represents a dollar index per terminal progeny produced for a bull in the AICA database, ranking them for profit potential. This dollar index is to be interpreted much like a single trait EPD. For example, if Sire A's index is \$191.66 and Sire B's index is \$200, then we would expect Sire B's offspring to average \$8.34 more net return (\$200 minus \$191.66) than Sire A's offspring.

COLOR IN CATTLE

If you want all your calves color marked for a premium price use our white bulls. About all of the other European breeds have diluted their genetics to make their red cattle into black. Even Herefords have a black option. The Charolais Associations long standing position has been not to register black haired cattle.

As a group we are very proud of our Yellow and Smokey colored feeder calves.

Color counts when your cattle sell at the auction. Order buyers have only seconds to determined the genetic potential, weight, body condition, fill and finally the price. Certified Angus beef is a meat marking program that has created a demand for black cattle. However, some issues still remain, not all black cattle are Angus and about 30% of black cattle receive the CAB premiums.

The recent Beef Quality Assurance said while a lot of progress has been made in quality grade. External fat and inadequate muscling still remains as an industry problem. They called it "Lost Opportunities." All agree that continued progress can be made. We offer a tool to get you there.

Charolais advantage's are several. As long as your calves are sold by the pound, feed lots want efficient gains and packers do not want external fat, Charolais will remain in demand.

If you have any questions about how our genetics can work for you please call. I would really like to discuss how our Ace Bulls can be your next step to increasing your income.

PreFix on Reg. Number Tells a Story

M - MALE

*EM - EMBRYO MALE

Q - RED FACTOR CHAR

RM - 75% OR MORE CHAR

MP - 50% CHAR

* Embryos are not raised by their biological Mothers, therefore the adjusted weaning weight may not be very accurate.

FEMALES SELLING

The select group of bred cows and pairs will sell after the bull sale. All the cows have Akaushi calves bred back to Hot Damn. These are Charolais and Red Angus based females from the heart of our hybrid program. More information available at sale time.

4 with fullblood ET bull calves

2 with fullblood ET heifers

9 with halfblood Akaushi calves

GROW YOUR OWN OPPORTUNITY

We are offering these 100 % Full Bloods from the heart of our ET program. Our selection criteria was based on unique foundation genetics with eye appeal and growth as our goals. Sexual maturity, we expect all of our breeding stock, both bulls and heifers, to have calves on the ground at two years of age.

- Eye Appeal
- Good Disposition
- Proven Ancestors

We are really excited about our recently purchased fullblood Akaushi herd sire. We searched for over a year to find genetics that would help secure our two main concerns with Japanese cattle. Most lacked the growth and eye appeal to fit our bull selling program.

Prime and choice grading while maintaining yield grades of three or better will not be an issue. However, to take advantage of optimum hybrid vigor, we searched for a breed with few problems that is totally unrelated to the nations cowherd. We are producing both 1/2 blood hybrids and fullblood Akaushi bulls.

AKAUSHI/WAGYU ARE HERE TO STAY

Most American cattlemen have had limited exposure to cattle from Japan. The black ones have been around about 40 years. Their limited growth and frail appearance did not fit our program. A few years ago we found the RED AKAUSHI breed and they appeared to have some potential. 1992 was the only importation of three fullblood bulls, Shigemaru, Hikari and Tamamaru. Plus a few fullblood females were also imported. They were multiplied in a closed herd by HeartBrand Ranch in Texas.

In 2013, we quietly started our experiment with these Japanese Cattle. In general they have far exceeded our expectations. We have calved first calf heifers out of fullblood and halfblood AKAUSHI bulls with excellent results. They have acceptable growth and their eye appeal has been a pleasant surprise. The long term goal for the AKAUSHI is to produce prime grading carcass for premium meat marketing programs. In one cross you can hit more than 40 percent prime grading carcasses.

Based on the previous five year average, prime has a \$200 a head or more premium over high choice. Today the industry produces about 6 percent prime grading beef. Currently high end restaurants cannot find enough prime meat. Another niche market may be for your own grass fed beef program.

Who knows what will happen in the future. Based on consumer demand the industry keeps changing, that being said, right now on the local level we believe our AKAUSHI will produce feeder cattle that will sell as good as any.

Hybrid bull buyers may have said it best. We have something to gain and nothing to loose.
