Jazz Concert Season - Explanation of our Patron Donation Procedures

The Jazz Concert Season is a volunteer resident organization that annually produces jazz concerts at our property. These concerts mostly feature touring jazz artists and groups with multiple CD recordings, appear at top jazz venues or festivals in the State and are nationally or internationally in demand. The concert artists are selected by The Series Organizers sometimes in consultation with artistic directors of performing arts venues, jazz festivals, or local college and university music faculty members and other senior living properties offering such concerts or by observation of the artists being booked by these entities.

You can become a patron by completing the authorization on the reverse side.

The funds are maintained in a segregated account administered by Community Accounting. All disbursements require the approval of the Community Director of Activities and the Community Director of Accounting in addition to the Jazz Concert Series organizers.

Finally, consider being an occasional concert sponsor in honor of a special birthday, anniversary, or whatever. Sponsor's names are publicized with the concert they are sponsoring and sponsorship helps us enormously with funds needed for artist fees and concert production costs. A sponsor donation is \$ _____ and is non-exclusive. For further information, contact The Jazz Concert Series organizers listed _____.
