

# NEW INSIGHTS NEW OUTLOOK

BILL LUKENS

New Insights New Outlook (NINO) is committed to offering men new insights into themselves. My personal experience has shown that these insights change men's outlook on their life, spiritual walk, relationships and career. My experience is that men who pursue truth and apply truth to their daily walk reap a richer walk filled with joy and peace.

We will explore how your Personal Awareness (PA), Relational Awareness (RA),

Spiritual Awareness (SA) and His Protection (HP) combine to impact your walk through life. These distinct qualities are as unique for each of us as our DNA. Personal Awareness and Relational Awareness have been studied for generations. Spiritual Awareness and His Protection are newer concepts that we believe are as critical as their two counterparts to the development of men.

Our purpose is to introduce you to a number of resources that can provide insights that can spark a new outlook for your life. Our "value add" is to integrate these four spheres of influence on your walk. We have drawn these resources from the academic world, spiritual world and life experiences. Although I have been a follower of Christ for over thirty years my life experience from my "old life" continues to provide great insight. I see them through a new lens that only enriches the value of these lessons. If you are not a follower of Christ do not stop reading! You can still benefit from the wisdom that we have assembled. We share insights- you draw your own conclusions. We do not tell you how to apply what you discover because we believe that men are free to make their own decisions. They are not slaves to religious beliefs but have been given the freedom to follow their conscious. Christians have the Holy Spirit as our conscious. In my "old life" my conscious still spoke to me. Bottom line - we'll provide insights from many sources and you will decide how these insights impact your outlook and walk.
