about

LaVerne

I was once a Survivor of domestic abuse. Today I stand as a Thriver living my best life after abuse. I knew my purpose in life was to educate and empower victims of abuse that they are more than their experiences.

Natalie

"My purpose in this life is not to merely survive but to THRIVE, to do so with some compassion, some intention, some hope, some passion, some style, and some humor. I am here to THRIVE."

Podcast & Community Influencers

Natalie & LaVerne is dedicated to end domestic abuse around the world, starting with their own community in Milwaukee. Through countless appearances, training, speeches & volunteering in the community, the two of them have become one of Milwaukee's most influential & highly respected advocates.

They created the podcast as a way to reach the masses about the truth and myths about domestic abuse and to discuss "Life After Abuse."

Have You Seen Us

We have had the honor to tell our story and share our platform at many events, training's, seminars, community forums, & national news platforms. We believe that healing comes from being transparent and the ability to live life after abuse.
